## **1. Purpose of the consultation – scope and timeframe**

- 1.1 This consultation covers proposals to amend the legislation governing the Local Government Pension Scheme (Northern Ireland) (“LGPS (NI)”).
- 1.2 The proposed amendments cover both the changes required by an Employment Tribunal ruling in relation to survivor benefits, and a number of technical amendments and minor policy updates.
- 1.3 Section 21(1) of the Public Service Pensions Act (NI) 2014 requires the Department to consult such persons (or representatives of such persons) as appear to the Department likely to be affected.
- 1.4 The closing date for submitting responses is 10 December 2021.
- 1.5 The Department will consider and respond to comments it receives during this consultation.
- 1.6 Responses are invited to this consultation about any aspect set out in this paper.

## **2. Background**

- 2.1 The LGPS (NI) is a defined benefits scheme under the Public Service Pensions Act (NI) 2014. It is also a funded scheme. The 2014 Act introduced pension reforms across public sector pension schemes to address the impact of long term scheme costs for taxpayers and employers.
- 2.2 It is the responsibility of the Department to update the legislative framework for the LGPS (NI) taking account of developments in public sector pension policy.

## **3. Survivor Benefits**

- 3.1 Following the Walker v Innospec Supreme Court judgment, the Westminster government decided that surviving male same-sex and female same-sex spouses and civil partners of public service pension scheme members should generally receive benefits equivalent to those received by widows of opposite sex marriages.
- 3.2 A case brought in the Employment Tribunal against the Secretary of State for Education in England and Wales highlighted that these changes may lead to direct sexual orientation discrimination within the Teachers’ Pension Scheme, where male survivors of female scheme members remain entitled to a lower survivor benefit than a comparable same-sex survivor.

3.3 The Westminster government concluded that changes were required to the Teachers' Pension Scheme to address the discrimination. They also stated that this difference in treatment would need to be remedied in those other public service pension schemes where the husband or male civil partner of a female scheme member is in similar circumstances.

3.4 Before either of these rulings, and before the introduction of same-sex marriage and opposite-sex civil partnerships in Northern Ireland, the LGPS (NI) had differing treatment for the survivors of post service marriages. If the survivor was a widow, their pension was based on service back to 1978, but if they were a widower, the service counted was only to 1988. Surviving civil partners were treated as equivalent to widowers.

3.5 The Marriage (Same-sex Couples) and Civil Partnership (Opposite-sex Couples) (NI) Regulations 2019, which were introduced through Westminster, implemented the Walker amendments. They equalised same-sex survivors, either spouses or civil partners, with widows of opposite-sex marriages but made survivor benefits of male survivors of opposite-sex civil partnerships the same as for widowers of opposite-sex marriages. These amendments were only introduced from 13 January 2020, unlike in the

LGPS (England and Wales) where these amendments were made retrospective to 2005 for civil partnerships and 2014 for single-sex marriage when each became legal.

3.6 Following the Goodwin ruling, we now need to equalise benefits for male survivors of opposite-sex marriages or civil partnerships. As, in Northern Ireland, the Walker amendments were only introduced from 13 January 2020, we have the choice of making the Goodwin amendments retrospective to the same date or of making both the Goodwin and Walker amendments retrospective to 2005.

3.7 It is proposed that the policy intent of ensuring equality of treatment regardless of gender or sexual orientation is best implemented through making both amendments retrospective to 2005.

## **4. Other amendments**

4.1 In addition to the changes needed to take account of the Walker judgment and the Goodwin ruling, it is proposed that the draft Regulations (see Annex A) should include amendments to make a number of drafting improvements that clarify the original policy intent and introduce a number of minor policy changes. These proposed amendments cover the following areas –

- 1) Introduction of a power for the Department to issue statutory guidance on the operation of the Scheme's regulations – this mirrors an equivalent power taken by the Secretary of State in E&W following a number of successful legal challenges and aims to deliver greater standardisation of approach in particular in relation to the consistent interpretation of regulations (regulation 3).
- 2) 30 day rule (regulation 16A of the Local Government Pension Scheme Regulations (NI) 2014 (“the 2014 Regulations”)) – it is proposed that the rule regarding automatically continuing contributions during “absences with permissions” of less than 30 days should be amended. The current regulation states that where an absence is more than 30 days the regulation applies in respect of the first 30 days only. This has created issues with extended maternity leave as employers are unable to pick up on the need to change the contribution situation at the 30 day point. It is proposed to amend this so the automatic continuance of contributions only applies to absences of less than 30 days. For longer absences the member can arrange to make up the contribution gap on their return through Additional Pension Contributions (regulation 4).
- 3) Removal of limit of 50% of pensionable pay for Additional Voluntary Contributions (AVC) contributions – this is considered to be unnecessary in addition to current tax related limits on pension contributions (regulation 5(a)).
- 4) Special lump sum death benefit charges – changes to the Finance Act 2004<sup>a</sup> mean that these charges can now apply where the member died before the age of 75 – the wording needs to be adjusted to reflect this (regulation 5(b)).
- 5) There is currently a requirement that refunds to members are made within 5 years of their leaving service. This is amended to allow the Committee the discretion to pay after this, if they consider this is justified (regulation 6).
- 6) Multiple events within the same accounting period – this amendment clarifies how revaluation adjustments are to be handled in the instance where a member ceases to be an active member, becomes a deferred member and a pensioner member all within the same Scheme year (regulation 7).

---

<sup>a</sup> Taxation of Pensions Act 2014, s 3, Sch 2, Pt 2, para 17(3); Finance (No 2) Act 2015, s 21(2)

- 7) Death grants – previously these had only been paid if a member died before the age of 75 as, under the Finance Act 2004, such payments where the member was over 75 at death were unauthorised. This was changed by the Finance Act 2011, Schedule 16, Para 33(3)(a). This change, in conjunction with a rising normal retirement age and the removal of mandatory retirement ages mean that this limit should be removed. Pensions are paid from age 75 even if the member is still working, therefore, it is proposed to extend death grants to all over 75s on the same basis as pensioners i.e. 10 times the annual pension earned minus any payments already received. It is also proposed to make this retrospective to the start of the 2015 scheme (regulations 8, 9 and 23).
- 8) Exit certificates – this amendment allows the administering authority, the Northern Ireland Local Government Officers’ Superannuation Committee (NILGOSC) to issue an interim exit certificate subject to Departmental approval and conditions. This is useful in circumstances where the exit has happened rapidly eg insolvency and the financial situation is uncertain (regulation 10).
- 9) Internal dispute resolution procedure – it is proposed that the time period for decisions should be extended from 2 to 4 months. The need for medical examinations, reports, etc often make a two month deadline impossible to meet leading to multiple breach reports. The Pensions (NI) Order 1995 states that these decisions must be within a reasonable time period - the Pensions Regulator expects them to be made within four calendar months, therefore, we would propose adopting a similar period in the LGPS Regulations (regulation 11).
- 10) Forfeiture – At present forfeiture can only occur where a member has committed an offence in connection with their employment for which they have been convicted and because of which the member left that employment. The nature of employment-related offences means that they are often not uncovered until after the perpetrator has left their employment for other reasons. It is therefore proposed to remove the requirement for the member to have left their employment due to the offence (regulation 12).
- 11) Definitions – some minor amendments are made to definitions in Schedule 1 (interpretation) to the Local Government Pension Scheme Regulations (NI) 2014 (“the 2014 Regulations”) in order to ensure clarity (regulation 13).

- 12) Schedule 2 to the 2014 Regulations is amended to clarify that the Committee has discretion on admission. It is now consistent with regulation 5 of the 2014 Regulations (regulation 14).
- 13) References to the Regional Health and Social Care Board (HSC) are removed from Schedule 3 to the 2014 Regulations. There are no longer any HSC members in the LGPS NI and this also anticipates the planned move of HSC Board staff into the Department of Health (regulation 15).
- 14) Clarification is provided regarding the calculation of death grants for those who were only members of the previous schemes (regulation 17).
- 15) Regulations 18 and 19 covers the changes required by the Goodwin along with corrections to the terminology regarding survivor pensions/benefits and amendments to clarify contracted out service (regulations 18 and 19).
- 16) Clarification is provided regarding the application of the 85 year rule (regulation 20).
- 17) The LGPS (Benefits, Membership and Contributions) Regulations (NI) 2009 are amended to ensure that fluctuating emoluments are always averaged over a three year period when calculating final salary for pension purposes (regulation 22).

## **5. Human Rights**

- 5.1 The Department believes that the proposals set out in the draft Regulations are compatible with the Human Rights Act 1998.

## **6. Equality**

- 6.1 The Department considers that the draft Regulations do not contain proposals to change policy in a substantive way, therefore, no adverse impact on the categories of person in section 75 of the Northern Ireland Act 1998 are identified. A minor positive impact has been identified in the section 75 categories of gender (men and women generally), sexual orientation, age, marital status and persons with dependents.

## **7. Regulatory Impact Assessment**

- 7.1 The Department considers that the proposed amendments will not have a direct impact on businesses, charities, social economy enterprises or the voluntary sector.

## **8. Rural Proofing**

- 8.1 The Department considers that the proposed amendments in the draft Regulations will not have any differential impact on people living in rural areas.

## EXPLANATORY NOTE

*(This note is not part of the Regulations)*

These regulations make minor technical amendments to the following Regulations –

The Local Government Pension Scheme Regulations (Northern Ireland) 2014;

The Local Government Pension Scheme (Amendment and Transitional Provisions) Regulations (Northern Ireland) 2014;

The Local Government Pension Scheme (Benefits, Membership and Contributions) Regulations (Northern Ireland) 2009; and

The Local Government Pension Scheme (Amendment) Regulations (Northern Ireland) 2016.

Regulation 2 introduces amendments to The Local Government Pension Scheme Regulations (Northern Ireland) 2014.

Regulation 3 enables the Department to issue guidance to the administering authority on the administration and management of the Scheme.

Regulation 4 clarifies when contributions should be made during absences with permission (the 30 day rule).

Regulation 5 removes the 50% limit of pensionable pay limit on contributions to additional voluntary contributions and it also brings these regulations into line with section 206 of Finance Act 2004 in relation to defined benefit lump sum death grant by deleting “Where the member has attained the age of 75” from regulation 19(13) (additional voluntary contributions).

Regulation 6 amends regulation 20(5) (rights to return of contributions) to give the Committee the discretion to refund contributions outside of the five year limit.

Regulation 7 amends regulation 28 (retirement pension accounts: deferred members and pension credit members) to clarify the administrative arrangements required where a member ceased to be an active member, became a deferred member and a pensioner member all within the same Scheme year.

Regulations 8, 9 and 23 remove the age qualification from the criteria for the award of death grants.

Regulation 10 amends regulation 70 (special circumstances where revised actuarial valuations and certificates shall be obtained) to give the Department the power, subject to such conditions as it considers appropriate, to approve the issue of an exit certificate by the Committee on an interim basis.
