Dear Sharon

RE: CCEA Regulation Monitoring Report 2019

Thank you for receipt of your final monitoring report. We are delighted that the report highlights that OCN NI has no non-compliances and no action plan is required in response.

The findings and observations are welcomed and we intend to follow up on a number of observations – some of which have already been incorporated into our operational plan 2019/20.

I'd also like to take this opportunity to commend the professional conduct of your regulatory monitoring team during the recent audit of OCN NI. The process of communication and the approach employed during the organisation visit was positively commented on by OCN NI staff and enabled the regulatory team to have a full and open interaction. This has culminated in a report which portrays OCN NI in a very positive light and provides great encouragement to the Board and staff. The report findings validate the hard work and application we endeavor to fulfil in order to protect the AO license we value so much.

Once again, OCN NI welcomes the robustness of regulatory audit and look forward to continuing to work in supporting the NI Regulator's vision for safeguarding the quality assurance of qualifications offered in N. Ireland.

Yours sincerely

Martin Flynn
Chief Executive
