

# Northern Ireland Census 2011 Key Statistics Summary Report

September 2014

# The Northern Ireland Statistics and Research Agency

The Northern Ireland Statistics and Research Agency (NISRA) is an Executive Agency within the Department of Finance and Personnel (DFP) and was established on 1 April 1996 under the Government's Next Steps Initiative. The Agency also incorporates the General Register Office (GRO) for Northern Ireland.

NISRA's core purpose is:

- To provide a high quality, cost effective, statistics, research and registration service that informs policy making, the democratic process and the wider public.

The corporate aims of the Agency are:

- The provision of a statistical and research service to support decision making by Northern Ireland Ministers and Departments and to inform elected representatives and the wider community through the dissemination of reliable official statistics; and
- The administration of marriage laws and the provision of a system for the civil registration of births, marriages and civil partnerships, adoptions and deaths in Northern Ireland.

NISRA can be found on the internet at <http://www.nisra.gov.uk>

The United Kingdom Statistics Authority has designated these statistics as National Statistics, in accordance with the Statistics and Registration Service Act 2007 and signifying compliance with the Code of Practice for Official Statistics.

Designation can be broadly interpreted to mean that the statistics:

- meet identified user needs;
- are well explained and readily accessible;
- are produced according to sound methods; and
- are managed impartially and objectively in the public interest.

Once statistics have been designated as National Statistics it is a statutory requirement that the Code of Practice for Official Statistics shall continue to be observed.

# Introduction

This publication is a summary report from the 2011 Census of Population for Northern Ireland. It provides key statistics for the majority of Census questions and topics for Northern Ireland and at the Local Government District (LGD), Health and Social Care Trust (HSCT), Education and Library Board (ELB), NUTS Level III (European Union Nomenclature of Units for Territorial Statistics) Areas, Assembly Area (AA) and Local Government District 2014 (LGD2014)<sup>1</sup>, levels of geography. They are mainly presented as percentages of population totals. The tables presented in this report are available electronically on the Northern Ireland Neighbourhood Information Service (NINIS) website at: <http://www.nisra.gov.uk/ninis>

This report is produced in accordance with the provisions of the Census Act (Northern Ireland) 1969<sup>2</sup>. As a statutory report, it therefore relates to the conduct of the Census in Northern Ireland only. The Censuses in England & Wales and in Scotland are the responsibilities of, respectively, the National Statistician and the Registrar General for Scotland.

As with all Census outputs, this report has been made possible through: the co-operation of members of the public in responding to the Census; the commitment of the Census Field Staff in undertaking

the enumeration of the Census; and the assistance of many other people and organisations throughout all aspects of the Census. The Registrar General for Northern Ireland would like to thank all those who have contributed to this work.

## Background to the 2011 Census

### Legislation

The Census Act (Northern Ireland) 1969 allows for the carrying out of a Census no less than five years after the previous Census. However, various other legislative requirements need to be fulfilled before a Census can be held. Following detailed consultation, development work and testing, the legislative process was initiated through the publication, in March 2010, of a proposals document, 'The 2011 Census of Population in Northern Ireland'<sup>3</sup>. This informed The Census Order (Northern Ireland) 2010<sup>4</sup>, which was debated and approved by the Northern Ireland Assembly in June 2010. The Census Order determined: the date of the Census; the people required to complete the form; those to be included on the form; and the topics on which questions would be asked. The operational aspects of the Census also required legislative approval. This information was set out in The Census Regulations (Northern Ireland) 2010<sup>5</sup>, which contained details of how the

1 In 2008, the Northern Ireland Assembly approved the reform of Local Government. The change moved Local Government from the 26 current Districts (LGD) to 11 new Districts (LGD2014), as well as making changes to the powers of Local Government. The geographical changes were defined in the Local Government (Boundaries) Order (Northern Ireland) 2012 available at <http://www.legislation.gov.uk/nisr/2012/421/contents/made>

Census was to be conducted and included a copy of the Census form<sup>6</sup>.

Regulations (EC) No 763/2008<sup>7</sup> and (EU) No 519/2010<sup>8</sup> of the European Parliament and of the Council on population and housing censuses, implemented through Commission Regulation (EU) No 1151/2010<sup>9</sup>, required Member States to provide the Statistical Office of the European Communities (Eurostat) with census-derived statistical information, or equivalent, referring to the reference year 2011. The United Kingdom has provided the required information based on the Censuses held in England & Wales, Scotland and Northern Ireland in 2011.

### **Fieldwork**

The Census was designed to collect information on the usually resident population on Census Day - 27 March 2011. Ahead of this day, there was a postal delivery of questionnaire packs to households and enumerator delivery to communal establishments. The single exception to this was households in rural Fermanagh, where addressing issues led NISRA to use enumerator delivery.

Residents were asked to complete the forms with their information, as correct on Census Day, and to return these by post or online. Where Census Office did not receive a form

through the post or an online response, an enumerator visited the address in order to encourage the return of the completed Census form. Special arrangements were made to enumerate the Armed Forces and people sleeping rough.

### **Processing**

Returned paper forms were fed through scanning machinery in order to capture all the ticked responses and written answers in digital form. These were then combined with online returns and stored electronically. Written answers were coded into categories either by automatic systems which recognised terms given in response to questions, or by manual coding. These data then underwent an edit process to ensure consistency, and a statistical imputation process to supply responses for questions which had not been completed by the respondent.

### **Coverage of the population**

The results in this report relate to the usually resident population of Northern Ireland on Census Day, 27 March 2011. Students are recorded at their term-time address. The Census placed a legal obligation on every household in which someone was usually resident on Census Day, and on every person who was a usual resident of a communal establishment, to complete a Census form. As no Census of Population succeeds in collecting information from every resident, a methodology was developed to adjust the results to take account of any undercount and thus provide an accurate estimate of the total population and its characteristics. The coverage methodology

was developed with the assistance of academic experts and was subject to consultation and peer review. The work involved matching the results of the Census enumeration with those of an independent large scale Census Coverage Survey<sup>10</sup> of approaching 15,000 households, conducted shortly after the Census. This, along with activity based information for non-responding households derived from the medical card register, enabled the number and characteristics of those not enumerated in the Census to be estimated and this information was used to produce Census results that cover the complete population. Accordingly, the figures presented here, as with all reports on the 2011 Census, have been adjusted to take account of under-enumeration<sup>11</sup>. Administrative registers and demographic estimates were used along with information from the 2001 Census to quality assure the final estimates.

### Comparability with 2001

The Census is designed to provide the most accurate possible picture of the population on the day the Census is taken. Further, both the 2001 and 2011 Censuses were adjusted for under-enumeration and consequently both reflect the whole Northern Ireland population on Census Day 2001 and Census Day 2011, facilitating some comparisons between 2001 and 2011. However, such comparisons will be affected by differences, in particular, between the

Census questionnaires in 2001 and 2011. Further detail on this can be found in the 'Comparability of the Census questionnaire in Northern Ireland between 2001 and 2011' document<sup>12</sup>.

It is recommended that changes over time in the number of the usually resident population are based on mid-year population estimates<sup>13</sup>.

### Information in this Report

As outlined earlier, this report provides Census results for Northern Ireland on Census Day, 27 March 2011. A full list of definitions and output classifications is contained in the '2011 Census Definitions and Output Classifications' document<sup>14</sup>.

All questions included in the 2001 Census were also included in the 2011 Census, with the exception of questions relating to: amenities; lowest floor level of accommodation; whether all rooms in a household were located on a single floor; and number of employees at place of work. The answer categories in some questions, such as educational qualifications, were updated. Other questions on, for example, marital and same-sex civil partnership status and hours worked were restructured. Further detail can be found in the 'Comparability of the Census questionnaire in Northern Ireland between 2001 and 2011'. The 2011 Census

questionnaire also contained new questions on: household adaptations; last country lived in; date arrived in Northern Ireland; passports held; national identity; main language; use of English as a main language; ability in Ulster-Scots; adapted accommodation; nature of long-term conditions; and voluntary work.

The Census questions asked of all people covered:

- relationship to others in the household;
- sex, age (date of birth) and marital and same-sex civil partnership status;
- whether schoolchild/full-time student;
- term-time address (where applicable);
- Irish language and Ulster-Scots language;
- main language;
- religion or religion brought up in;
- country of birth;
- national identity;
- passports held;
- ethnic group;
- general health, long-term health problem or disability and nature of long-term conditions;
- provision of unpaid care;
- intention to stay and whether lived outside Northern Ireland; and
- usual address one year ago.

Further questions asked of those aged 16 and over covered:

- educational qualifications;
- economic activity and employment status;
- occupation and industry of employment;

- address of workplace or place of study;
- method of travel to work or place of study;
- voluntary work; and
- hours worked.

In addition, the person filling in the form in each household was asked about:

- type of accommodation and whether it was self-contained;
- number of rooms;
- presence and type of central heating;
- availability of cars or vans;
- whether accommodation adapted;
- tenure; and
- landlord.

## Finding information in this Report

This report contains 45 key statistics tables, covering the majority of topics contained in the Census. Within each table, results are presented for Northern Ireland, Local Government Districts, Health and Social Care Trusts, Education and Library Boards, NUTS Level III (European Union Nomenclature of Units for Territorial Statistics) Areas, Assembly Areas and Local Government Districts 2014. The actual counts underlying the percentages in this report, as well as complementary statistics for Northern Ireland's Electoral Wards, Super Output Areas (SOA) and Small Areas (SA), are available from the Northern Ireland Neighbourhood Information Service (NINIS) website at: <http://www.nisra.gov.uk/ninis>

## Quality of the results

The use of the Coverage Assessment and Adjustment methodology means that the results of the 2011 Census cover the entire population of Northern Ireland. The results are nonetheless subject to potential errors from a variety of sources, including incorrect information provided on forms, sampling error relating to estimates derived through the adjustment process, and errors introduced during processing and imputation. Some elements of incorrect information have been corrected during an edit process and, following this, the results have undergone an extensive quality assurance process including checks against other information sources.

Further information on accuracy, coverage and imputation rates is provided in the 2011 Census Quality Assurance reports<sup>15</sup> that have accompanied each of the releases to date.

## Confidentiality

The Registrar General has taken steps to ensure that the confidentiality of respondents is fully protected. Accordingly all published results from the Census have been subject to statistical disclosure control processes<sup>16</sup>.

**Notes:**

1. The living arrangements variable is different to marital or same-sex civil partnership status. It combines information from both marital or same-sex civil partnership status and the relationship matrix. Therefore, for example, a person living as part of a 'cohabiting couple' could in fact be married (to someone else) but will not appear as married or separated in this classification.

Area	All usual residents aged 16 and over in households	Percentage of all usual residents aged 16 and over in households who are:						
		Living in a couple		Not living in a couple				
		Married or in a registered same-sex civil partnership	Cohabiting	Single (never married or never registered a same-sex civil partnership)	Married or in a registered same-sex civil partnership	Separated (but still legally married or still legally in a same-sex civil partnership)	Divorced or formerly in a same-sex civil partnership which is now legally dissolved	Widowed or surviving partner from a same-sex civil partnership

**Notes:**

1. Car or van availability includes any company car or van when available for private use.
2. 'All cars or vans' includes only those cars owned by, or available for use by, households. This count is not exact as households with more than 20 cars or vans are counted as having 20 cars or vans.
