§ - In the HIS data, there are a number of episodes that are not recorded as day cases but do not involve an overnight stay and do not result in another episode of care at the same provider. These are referred to as zero bed days. Zero bed days include a number of records which resulted in the death of the patient, or their transfer to another hospital provider; however, the vast majority are recorded as having been discharged from hospital.

About the Hospital Information Branch (HIB)

Hospital Information Branch is responsible for the collection, quality assurance, analysis and publication of timely and accurate information derived from a wide range of statistical information returns supplied by the Health & Social Care (HSC) Trusts and the HSC Board. Statistical information is collected routinely from a variety of electronic patient level administrative system and pre-defined Excel survey return templates.

The Head of Branch is Principal Statistician, Siobhán Morgan. The Branch aims to present information in a meaningful way and provide advice on its uses to customers in the HSC Committee, Professional Advisory Groups, policy branches within the DoH, other Health organisations, academia, private sector organisations, charity/voluntary organisations as well as the general public. The statistical information collected is used to contribute to major exercises such as reporting on the performance of the HSC system, other comparative performance exercises, target setting and monitoring, development of service frameworks as well as policy formulation and evaluation. In addition, the information is used in response to a significantly high volume of Parliamentary/ Assembly questions and ad-hoc queries each year.

Information is disseminated through a number of key statistical publications, including: Inpatient Activity, Outpatient Activity, Emergency Care, Mental Health & Learning Disability and Waiting Time Statistics (Inpatient, Outpatient, Diagnostics and Cancer). A detailed list of these publications is available from <https://www.health-ni.gov.uk/topics/dhssps-statistics-and-research>

Further information on the data including definitions is available from the website <https://www.health-ni.gov.uk/articles/episode-based-activity>

Publication Revisions: A revised version of this publication was issued on **20th February 2020** following the identification of duplicated data in Trust returns. The revision results in 475 episodes/admissions being removed from Omagh Hospital (Western Health & Social Care Trust). The revisions relate to specialty 361 (Nephrology) in Volume 1. In Volume 2, the revisions effect diagnosis block 'Renal Failure ('N17-N19') and procedure block 'Miscellaneous Operations Procedure ('X28-X66') in Volume 3. HRG4 code LA97A has been revised accordingly in Volume 4. All relevant tables have been amended and revised figures identified with '*'. A revised methodology has been implemented to avoid similar issues in future.
