Introduction

This report presents the monthly performance against:

- Agreed population health and well-being outcome measures as outlined in the Draft Programme for Government (2016-21),
- Plan targets and indicators of performance drawn from the Health and Social Care Draft Commissioning Plan 2017/18

The report is divided into two sections:

- **Section 1: SET Outcomes.** This section includes performance against; PfG indicators; Department of Health indicators and internally defined directorate level Outcomes and Key Performance Indicators (KPIs) including Safety, Quality and Experience (SQE).

A dashboard is provided on a bi-annual basis to demonstrate the Trust's contribution to the achievement of the following PfG Outcomes:

- *We enjoy long, healthy active lives*
- *We care for others and help those in need*
- *We give our children and young people the best start in life*
- *We have a more equal society*

Safety, Quality and Experience performance is reported under this section on a monthly basis under the Department of Health led PfG outcome, We live long, health, active lives.

- **Section 2: Performance against commissioning plan targets.** This section contains separate sections for each of the directorates. The first few pages give a dashboard of performance;
 - Highlight scores against each of the Commissioning Plan targets
 - Performance against each of the HSC Indicators of Performance
 - Performance against each of the directorate KPIs

This is followed by a detailed breakdown of performance against each of the Commissioning Plan targets with, where appropriate, a 12 month performance trend analysis. The end of this section contains performance improvement trajectories.

SAFE & EFFECTIVE CARE

Description

Good nutrition is fundamental for health, healing and recovery from illness and injury. Nutritional screening is a first-line process of identifying patients who are already malnourished or at risk of becoming so and should be undertaken by the nurses on patient admission to hospital.

Aggregate position

Compliance with MUST screening continues to be monitored across all adult acute inpatient areas, acute mental health and dementia units.

| Environmental Cleanliness | To at least meet the regional cleanliness target score of 90% | The Policy for The Provision and Management of Cleaning Services issued by the DHSSPS in January 2015 requires Very High Risk and High Risk Scores to be reported for Cleaning and Nursing only. As a consequence of removing estate condition issues, the acceptable level of cleanliness in Departmental Audits which was set at 85% in Cleanliness Matters is increased to 90%. The removal of the Estates Services scores has contributed to the observed increase in overall scores. Overall the Trust continues to meet this higher threshold and continues to exceed its own internal target for all facilities, although individual facilities may on occasions not meet this target. | SET 96% | SET 95% | SET 92% | SET 94% | SET 92% | <table border="1"> <caption>Environmental Cleanliness Progress Data</caption> <thead> <tr> <th>Quarter</th> <th>SET</th> <th>UH</th> <th>LVH</th> <th>DH</th> </tr> </thead> <tbody> <tr> <td>Q3 16/17</td> <td>96%</td> <td>93%</td> <td>97%</td> <td>97%</td> </tr> <tr> <td>Q4 16/17</td> <td>95%</td> <td>93%</td> <td>97%</td> <td>95%</td> </tr> <tr> <td>Q1 17/18</td> <td>92%</td> <td>92%</td> <td>94%</td> <td>95%</td> </tr> <tr> <td>Q2 17/18</td> <td>94%</td> <td>91%</td> <td>97%</td> <td>95%</td> </tr> <tr> <td>Q3 17/18</td> <td>92%</td> <td>91%</td> <td>91%</td> <td>96%</td> </tr> </tbody> </table> | Quarter | SET | UH | LVH | DH | Q3 16/17 | 96% | 93% | 97% | 97% | Q4 16/17 | 95% | 93% | 97% | 95% | Q1 17/18 | 92% | 92% | 94% | 95% | Q2 17/18 | 94% | 91% | 97% | 95% | Q3 17/18 | 92% | 91% | 91% | 96% |
