Introduction

This report presents the monthly performance against:

- Agreed population health and well-being outcome measures as outlined in the Draft Programme for Government (2016-21),
- Plan targets and indicators of performance drawn from the Health and Social Care Draft Commissioning Plan 2019/20

The report is divided into two sections:

- Section 1: **SET Outcomes**. This section includes performance against; PfG indicators; Department of Health indicators and internally defined directorate level Outcomes and Key Performance Indicators (KPIs) including Safety, Quality and Experience (SQE).

A dashboard is provided on a bi-annual basis to demonstrate the Trust's contribution to the achievement of the following PfG Outcomes:

- *We enjoy long, healthy active lives*
- *We care for others and help those in need*
- *We give our children and young people the best start in life*
- *We have a more equal society*
- *We have a safe community where we respect the law and each other*

We will provide an update on a bi-annual basis. Full report can be found at <https://view.pagetiger.com/pfg-outcomes/improving-outcomes>

Safety, Quality and Experience performance is reported under this section on a monthly basis under the Department of Health led PfG outcome, We live long, health, active lives.

- Section 2: Performance against commissioning plan targets. This section contains separate sections for each of the directorates. The first few pages give a dashboard of performance;
 - Highlight scores against each of the Commissioning Plan targets
 - Performance against each of the HSC Indicators of Performance
 - Performance against each of the directorate KPIs

This is followed by a detailed breakdown of performance against each of the Commissioning Plan targets with, where appropriate, a 12 month performance trend analysis. The end of this section contains performance improvement trajectories.

Glossary of Terms

AH	Ards Hospital	IP	Inpatient
AHP	Allied Health Professional	IP&C	Infection Prevention & Control
ASD	Autistic Spectrum Disorder	KPI	Key Performance Indicator
BH	Bangor Hospital	KSF	Key Skills Framework
BHSCT	Belfast Trust	LVH	Lagan Valley Hospital
C Diff	Clostridium Difficile	MPD	Monitored Patient Days
C Section	Caesarean Section	MRSA	Methicillin Resistant Staphylococcus Aureus
CAUTI	Catheter Associated Urinary Tract Infection	MSS	Manager Self Service (in relation to HRPTS)
CBYL	Card Before You Leave	MUST	Malnutrition Universal Screening Tool
CCU	Coronary Care Unit	NICAN	Northern Ireland Cancer Network
CHS	Child Health System	NICE	National Institute for Health and Clinical Excellence
CLABSI	Central Line Associated Blood Stream Infection	NIMATS	Northern Ireland Maternity System
CNA	Could Not Attend (eg at a clinic)	OP	Outpatient
DC	Day Case	OT	Occupational Therapy
DH	Downe Hospital	PAS	Patient Administration System
DNA	Did Not Attend (eg at a clinic)	PC&OP	Primary Care & Older People

EMT	Executive Management Team	PfA	Priorities for Action
		PfG	Programme for Government
		PMSID	Performance Management & Service Improvement Directorate (at Health & Social Care Board)
ERCP	Endoscopic Retrograde Cholangiopancreatography		
ESS	Employee Self Service (in relation to HRPTS)	RAMI	Risk Adjusted Mortality Index
FIT	Family Intervention Team	SET	South Eastern Trust
FOI	Freedom of Information	S<	Speech & Language Therapy
HCAI	Health Care Acquired Infection	SQE	Safety, Quality and Experience
HR	Human Resources	SSI	Surgical Site Infection
HRMS	Human Resource Management System	TDP	Trust Delivery Plan
HRPTS	Human Resources, Payroll, Travel & Subsistence	UH	Ulster Hospital
HSCB	Health & Social Care Board	VAP	Ventilator Associated Pneumonia
HSMR	Hospital Standardised Mortality Ratios	VTE	Venous Thromboembolism
ICU	Intensive Care Unit	W&CH	Women and Child Health
liP	Investors in People	WHO	World Health Organisation
		WLI	Waiting List Initiative

SECTION 1
SET OUTCOMES

Programme for Government Framework

PfG Outcome: We enjoy long, healthy, active lives

Indicators

PfG:

% population with GHQ12 scores ≥ 4

Number of adults receiving social care services at home or self-directed support for social care as a % of the total number of adults needing care

% people who are satisfied with Health and Social Care

Preventable mortality

Healthy life expectancy at birth

Confidence of the population aged 60 years+ (as measured by self-efficacy)

Gap between highest and lowest deprivation quintile in health life expectancy at birth

DoH:

Improving the health of our people

Improving the quality and experience of healthcare

Ensuring the sustainability of our services

Supporting and empowering staff

Trust:

Reduce preventable deaths

Reduce unplanned Hospital admissions

Increase independent living

Decrease mood and anxiety prescriptions

Primary Measures

Recovery College

Emergency admissions rate

Improve support for people with care needs The number of adults receiving personal care at home or direct payments for personal care, as a percentage of the total number of adults needing care

Improve mental wellbeing

Improve end of life care - Percentage of the last 6 months of life which are spent at home or in a community setting

SQE Performance

Make Contact Count

Health Promotion

Age Friendly Societies

Falls Prevention

Smoking Cessation

Enhanced Care at Home

Ambulatory Care Hubs

SDS

Memory Clinics

SAFE & EFFECTIVE CARE - All targets reported one month in arrears. Figures correct as of 02.02.2021

SAFE AND EFFECTIVE CARE

January 2021

SAFE & EFFECTIVE CARE - All targets reported one month in arrears. Figures correct as of 02.02.2021

We all know that measurement is integral to the improvement methodology in healthcare but how do we know whether or not we have actually made a difference and if the care being delivered is getting better, staying the same or getting worse each year? What we do not always take into account is the variation in the way that services are delivered – by individual departments, people and even different types of equipment. All of these differences in the way things are done lead to differences in the way services are delivered.

The main aims of using Statistical Process Control (SPC) charts are to understand what is 'different' and what the 'norm' is. By using these charts, we can then understand where the focus of work needs to be concentrated in order to make a difference. We can also use SPC charts to determine if an improvement is actually improving a process and also use them to 'predict' statistically whether a process is 'capable' of meeting a target. SPC charts are therefore used:

- As way of demonstrating and thinking about variation
- As simple tool for analysing data – measurement for improvement
- As a tool to help make better decisions - easy and sustainable to use

NOTE: As the impact of COVID-19 continues the decision has been taken by the Chief Nursing Officer, Charlotte McCardle, in a letter to the five Trusts on 7th January 2021 to once again suspend the reporting of the KPIs to focus on the priority of providing safe patient care and supporting staff to achieve this. The PHA are continuing to monitor the outcome measures and there is a planned review of the position of reinstating monitoring and reporting data in June 2021.

SAFE & EFFECTIVE CARE - All targets reported one month in arrears. Figures correct as of 02.02.2021

Description

The score is aggregated from 6 parameters that should be routinely measured in hospital and recorded on the clinical chart. The aggregated score will then inform the appropriate response required and the frequency by which the next set of observations should be carried out. Compliance with this process is measured across all wards each month through a random sample of 10 patient charts in each area.

Aggregate position

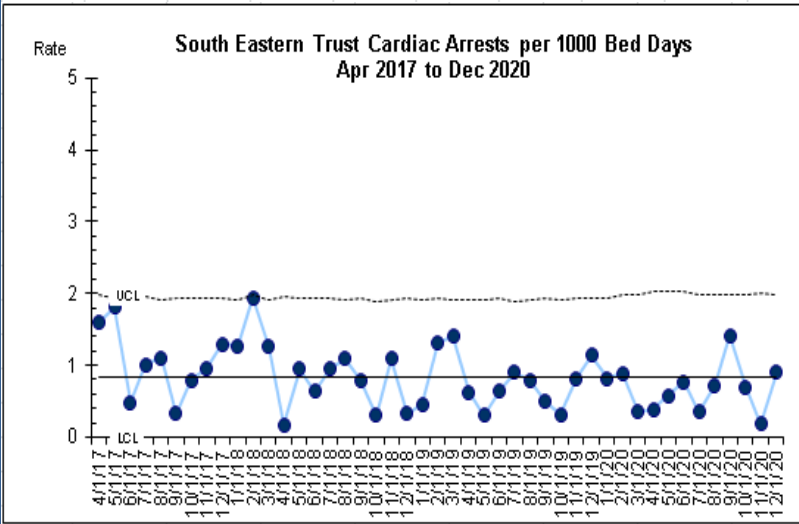

The Regional agreement was for all Trusts to move to NEWS 2 by 31st March 2020, supported by e-learning modules from Royal College of Physicians.

NEWS2
-Apart from the wards which are using NEWS electronically on eDAMS the rest of the areas have now moved to using NEWS2.

-Testing continues with regards to NEWS2 for eDAMS, once complete and satisfactory the wards currently using NEWS electronically will move to NEWS2 and then there will be a plan to scale and spread to all areas on eDAMS

-The art work for the NEWS2/Neuro-obs charts has been agreed and is in the process of procurement. Areas will then be informed of ordering details and a date will be agreed for immediate change over and old stock will be discarded.

Trend

Variation

Lowest compliance question: Part 2: If NEWS score is above 5, is there evidence of actions taken (95%)

2018/19

2018/19
Average compliance 95%

2019/20
Average compliance 93%

2020/21
Average compliance 92%

SAFE & EFFECTIVE CARE - All targets reported one month in arrears. Figures correct as of 02.02.2021

Description

Falls prevention requires a wide range of interventions and the FallSafe bundles aim to help acute adult hospital wards to carefully assess patients' risk of falling, and introduce simple, but effective and evidence-based measures to prevent falls in the future. All patients are assessed for falls risk using Bundles A and additionally patients aged 50-64 years who are assessed to be at higher risk of falling because of an underlying condition in Bundle B.

Aggregate position

SEHST Trust Falls Co-ordinator has been appointed. The Acute Falls Lead is now in post and has commenced improvement and validation work, particularly considering the falls that result in moderate or more severe harm to patients. A Community Falls Lead has been recruited to rebuild the community service and renew focus on work within care homes. The first draft of the SEHST Falls Strategy has commenced and input from all stakeholders will be essential to the success of this. It will incorporate the new staff appointments and the restructuring of the service.

The Trust Working Group recommenced November 2020. Incident rates and learning will be discussed quarterly in this forum. The Acute Falls lead is compiling Shared learning from Year 19-20 to produce a summary for clinical settings. This will be appropriately disseminated.

Trend

Variation

Lowest compliance questions:
Part A: 'Urinalysis performed' 94%
Part B: 'Lying and Standing Blood Pressure' 84%

2018/19

Environmental Cleanliness	To at least meet the regional cleanliness target score of 90%	The Policy for The Provision and Management of Cleaning Services issued by the DHSSPS in January 2015 requires Very High Risk and High Risk Scores to be reported for Cleaning and Nursing only. As a consequence of removing estate condition issues, the acceptable level of cleanliness in Departmental Audits which was set at 85% in Cleanliness Matters is increased to 90%. The removal of the Estates Services scores has contributed to the observed increase in overall scores. Overall the Trust continues to meet this higher threshold and continues to exceed its own internal target for all facilities, although individual facilities may on occasions not meet this target. Equality	To provide 'Working Well with Interpreters' training sessions for staff in LVH, UHD and Downpatrick during 2020-21. Three sessions in each location.	The Trust ensures that all staff who require a face-to-face interpreter have access to, and are competent to use, the Regional Interpreting Service.	0%	0%	50%		The Trust had planned to arrange face to face training sessions during 2020-2021. However these were unable to be fulfilled due to the guidance with regard to postponement of staff training due to the impact of coronavirus. A need was identified for this training to be provided to staff and therefore the Trust set up a Zoom Training session which was attended by 42 staff from all areas of the Trust. Feedback was positive. Further Zoom training sessions will be provided in Quarter 4.
	To ensure that all Trust policies and procedures are screened and reported on a quarterly basis through the intranet.	Policies and Procedures are Equality Screened by author with advice and guidance from Equality Team. Quarterly Screening Report available on Trust Website	100%	100%	100%		QSR was published in October 2020.

Bank	By March 21 reduce Agency Usage within all Corporate Bank Users to 15% and increase Bank usage to 85%	Trust continues with its plan to have a Trust wide Corporate Bank and convert the areas with high agency usage to Bank	80.4% Bank 19.6% Agency	Cum 81.8% Bank 18.2% Agency	Cum 75.9% Bank 24.1% Agency		The on-going impact of the CV-19 pandemic has resulted in a heavier reliance on agency across a number of services. As bank staff fatigue and self-isolations / outbreaks have increased in Qtr 3 the cumulative percentage has dropped sharply by 5.9%. Agency usage in MH in particular is extremely high with a range of block bookings needed to maintain services with agency support. On a positive note, despite the relentless pressures our teams face in the midst of these unprecedented times, the percentage excluding MHIPU and PHC stands at cumulative: Bank 80.5% / Agency 19.5%
	By March 21 to increase the Users of the Corporate Bank Service by 10%	The Corporate Bank aims to continue to increase its users	0%	0%	0%		There has been no growth in Qtr3. Demands on the CBO to be involved in responding to Covid pressures and vaccination programme has resulted in growth plans to be put on hold throughout the year. We continue to scope with SW and the leadership centre have been engaged to conduct an extensive root and branch review of the CBO and future plans. A consultant is currently working through the terms of reference..

Financial Break Even	South Eastern Trust must deliver financial breakeven by 31 st March 2020	Trust is forecasting a year end breakeven position, The Trust Delivery Plan (TDP) details measures on how the Trust will address an identified deficit of £3.6m, due to emerging pressures in 2018-19. The plan is reliant on the Trust identifying £0.75m in savings over the second half of the financial year. The Trust has made progress in addressing some of the shortfall. However a deficit of £0.55m remains. The Trust will continue to identify further savings/cost control measures of this value by year-end
