

Statistical Fact Sheet 8

Northern Ireland domiciled students enrolled on Higher Education courses in the UK and Republic of Ireland – 2010/11 to 2014/15

The chart and tables below provide information on NI domiciled students enrolled on Higher Education (HE) courses in the UK and Republic of Ireland. This includes HE enrolments at UK Higher Education institutions and Further Education (FE) colleges, as well as Republic of Ireland institutions.

- Between 2010/11 and 2014/15, the total number of NI domiciled students enrolled on HE courses at UK and ROI institutions decreased from 77,570 to 76,780 (a fall of 1.0%).
- Between 2013/14 and 2014/15, the total number of NI domiciled students enrolled on HE courses at UK and ROI institutions decreased from 77,165 to 76,780 (a fall of 0.5%).

Notes:

1. In 2014/15, there were 13 Northern Ireland (NI) domiciled other undergraduate students on a Higher Education (HE) course at an English Further Education (FE) college who had an unknown mode of study. These students have been included in the totals above but not in the mode of study breakdown.
2. Data on NI domiciled enrolments at GB FE colleges are provisional for 2014/15.
3. The definition of a Higher Education student used by the different data sources may vary slightly due to different data coding and variable definitions.
4. To prevent the identification of individuals, HE figures have been rounded to the nearest 5, in line with HESA rounding strategy, with 0, 1 and 2 rounded to 0.
5. For consistency, the same rounding strategy has been used on all figures in the table above.
6. Due to rounding, the sum of rows or columns may not match the total shown.
7. Percentages are based on unrounded figures.
