

Higher Education Statistical Fact Sheet 1: Age Participation Index for Northern Ireland - 1995/96 to 2018/19

The Age Participation Index (API) is a measure used to demonstrate changes in participation of young people in Higher Education over time. More precisely, it is defined as the number of NI domiciled young entrants (aged under 21) to full-time undergraduate Higher Education (in the UK or Republic of Ireland) as a percentage of the 18 year-old population of Northern Ireland.

- The NI API for the 2018/19 academic year was 50.7%, an increase of 0.1 percentage points from the 2017/18 academic year (50.6%). While the figure can fluctuate by a few percentage points from year to year it has grown substantially in net terms since 1995/96, at which stage it was 40.9%.

Year	Proportion of NI 18 year olds
1995/96	40.9%
1996/97	40.3%
1997/98	43.9%
1998/99	41.2%
1999/00	44.8%
2000/01	46.4%
2001/02	45.6%
2002/03	46.0%
2003/04	44.2%
2004/05	45.0%
2005/06	47.7%
2006/07	46.1%

Year	Proportion of NI 18 year olds
2007/08	49.6%
2008/09	48.2%
2009/10	50.7%
2010/11	48.0%
2011/12	48.8%
2012/13	45.9%
2013/14	49.5%
2014/15	49.4%
2015/16	48.2%
2016/17	51.5%
2017/18	50.6%
2018/19	50.7%

Notes:

1. From 2000/01, the data used to calculate the API are based on full-year enrolments. The data used in previous years were based on a snapshot of enrolments at 1st December of the academic year. Full year data are defined by the HESA standard registration population.
2. In 2013/14, the Further Education Statistical Record (FESR) ceased to exist and was replaced by the Consolidated Data Return (CDR).
3. There is no single common measure of HE participation across the UK. England and Scotland calculate the Higher Education Initial Participation Rate (HEIPR), which is a more wide ranging measure and includes, in addition to the API, part-time students and students up to the age of 30. Wales does not currently calculate a specific age participation rate.
4. Consideration is being given to developing the HEIPR for NI to facilitate future comparisons with England and Scotland. This will be done in consultation with key stakeholders.
5. Some students on Foundation Degrees have been included in both the HEI and FEC figures, as they were registered at and awarded qualifications from HEIs, but were taught at FECs. This has a small effect on the API estimate of approximately half of one percent and we will be reviewing the methodology for this in future releases.
6. The API percentage can fluctuate from year to year as a result of small increases or decreases in the 18 year old population each year in combination with small increases or decreases in enrolments.
