Notes:

1. For the years 2015/16, 2016/17, 2018/19 and 2019/20, some Northern Ireland (NI) domiciled other undergraduate students on a Higher Education (HE) course at an English Further Education College (FEC) had an unknown mode of study. These students have been included in the totals above but not in the mode of study breakdown.
2. Data on NI domiciled enrolments at Trinity College Dublin (TCD) were unavailable for the 2018/19 edition of this report, TCD figures were approximated using 2017/18 data and added to the Republic of Ireland (RoI) Institutions' total. Data including TCD are now available for 2018/19, figures have been updated for this publication.
2. The definition of a Higher Education student used by the different data sources may vary slightly due to different data coding and variable definitions.
3. Prior to 2019/20 NI Higher Education Institutions (HEIs) and FECs both included Foundation Degree students within their respective populations, meaning the two populations overlapped. Foundation Degree students are now excluded from the HEI population. Older data in this fact sheet have been revised to exclude Foundation Degree students from the HEI population, so will differ from previous iterations of this fact sheet.
4. To prevent the identification of individuals, HE figures have been rounded to the nearest 5, in line with HESA rounding strategy, with 0, 1 and 2 rounded to 0.
5. For consistency, the same rounding strategy has been used on all figures in the table above.
6. Due to rounding, the sum of rows or columns may not match the totals shown.
7. Percentages are based on unrounded figures.
