# Statutory Consultations Quarterly Performance Report Q1 2024/25

(Reporting on Q1 2024/25)

This quarterly report highlights the performance of statutory consultees in the planning process. It provides details of the volume of statutory consultation that has taken place during the first quarter of 2024/25 with comparative quarterly data back to 2019/20. The figures contained in this report are extracted from the Planning Portals, are management information, and should not be treated or considered as official statistics.

**\*\*\*THE INFORMATION IN THIS REPORT IS NOT CONSIDERED OFFICIAL  
STATISTICS AND SHOULD NOT BE QUOTED AS SUCH\*\*\***

# Planning Statutory Consultations

## Q1 2024/25

**Statutory consultations**, for the purposes of this report, are consultations marked as 'Statutory' for application types 'full', 'outline' and 'reserved matters' on the Planning Portals

### Statutory consultations raised

#### Number of statutory consultations raised

**5,244**

statutory consultations were raised in Q1 2024/25. Of these:

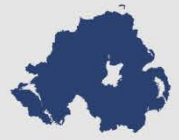

**4,884**  
(93%)

were on local applications

**357**  
(7%)

were on major applications

**3**  
(<1%)

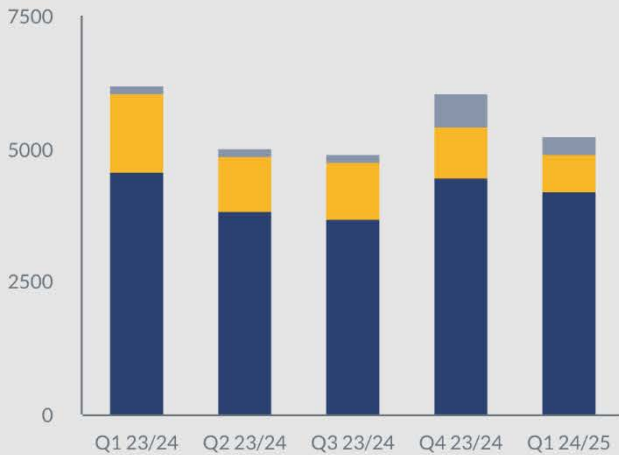

were on regional applications

### Statutory consultations response times

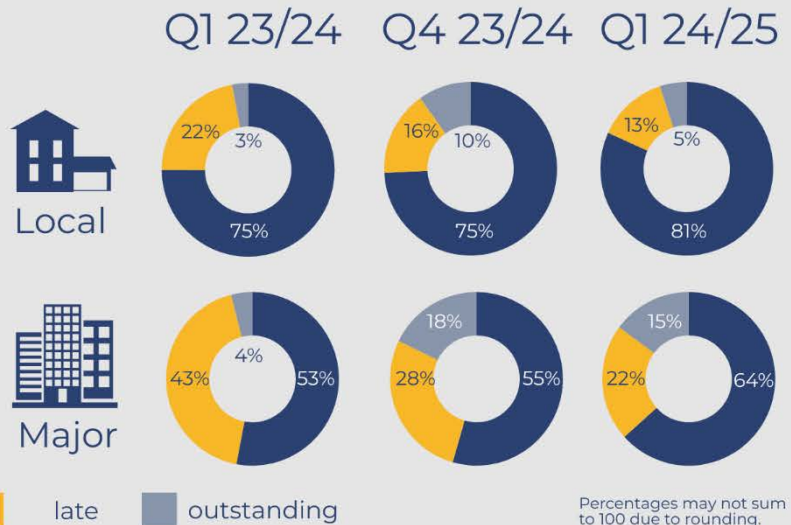

**80%** of statutory consultations in Q1 2024/25 were responded to on time (i.e. within the 21-day response target or the extended target)

#### Number of responses to statutory consultations received by status

#### Responses to statutory consultations received by application type and status (%)

Percentages may not sum to 100 due to rounding.

### Statutory consultees

#### Number of responses to statutory consultations received by statutory consultee and response status, April 2024 - June 2024 (5 most common consultees)

# Statutory Consultations Quarterly Report Q1 2024/25

## Introduction

This quarterly report highlights the performance of statutory consultees in the planning process. It provides details of the volume of statutory consultation that has taken place during the first three months of 2024/25 with comparative data from previous years.

**The figures contained in this report are extracted from the Planning Portals, are management information, and should not be treated as official statistics.**

## Statutory consultations

During the first three months of 2024/25 (1 April 2024 to 30 June 2024) there were 9,381 consultations/advice queries raised with 72% (6,790) of these consultations sent to key statutory consultees<sup>1</sup>. Of the 6,790 consultations/advice queries raised with statutory consultees, 77% (5,244) were deemed to be statutory consultations<sup>2</sup>, with the remainder largely made up of consultations on full applications (503), discharge of conditions (297), pre application discussions (264), listed building consents (130), advertising (115) and outline applications (105).

The number of statutory consultations raised by planning application type is reported in Table 1. The series is available from 2019/20.

In 2019/20 there was typically over six thousand statutory consultations raised each quarter. The consultation level fell in Q4 2019/20 (January to March 2020), compared with earlier quarters in that year and a further decrease was reported for Q1 2020/21 (April to June 2020). It is likely that these decreases were a consequence of the coronavirus (COVID-19). See Table 1.

Statutory consultation returned to expected levels in Q2 2020/21 (July to September 2020) and remained stable to the end of 2020/21. Consultation then increased peaking in the first quarter of 2021/22 (April to June 2021) with 7,440 statutory consultations. From October 2021 up to September 2022 quarterly consultation levels were reasonably steady.

In Q3 2022/23 (October – December 2022) there was a notable decline in consultation levels which is likely to be related to the introduction of the Planning Portal in early December 2022. Prior to the go live of the new planning system the existing system was unavailable for a period which will have contributed to lower levels of consultation. In Q2 and Q3 of 2023/24 consultation declined to some of the lowest levels reported across the series. Levels increased in the last quarter of 2023/24 but have retracted in the first quarter of 2024/25. See Table 1.

---

<sup>1</sup> See [User Guidance](#) for a list of key statutory consultees.

<sup>2</sup> A statutory consultation for the purpose of this report is a consultation marked as 'Statutory' for application types 'full', 'outline' and 'reserved matters' for the statutory consultees listed in the [User Guidance](#) section.

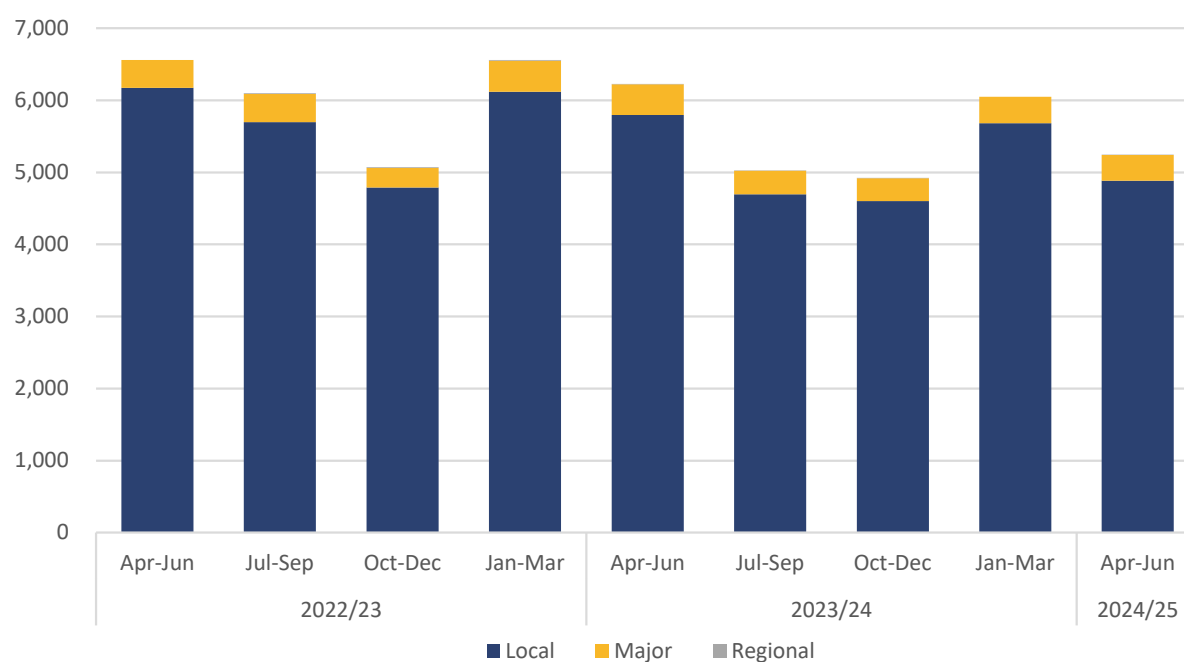

Table 1: *Number of statutory consultations raised by planning application type (Quarterly)*

Year	Quarter	Local	Major	Regional	Total

	Jan-Mar	5,680	370	0	6,050
2024/25	Apr-Jun	4,884	357	3	5,244

Note: figures reported represent consultations marked as 'Statutory' for application types 'full', 'outline' and 'reserved matters' for the statutory consultees listed in [User Guidance](#) section.

As in previous quarters, statutory consultations on local planning applications accounted for most of the consultations raised during the first quarter of 2024/25 (93%). See Chart 1.

Chart 1: *Number of statutory consultations raised by planning application type*

## Planning Applications Received

With exception of a period impacted by the coronavirus pandemic, the number of planning applications received remained relatively stable from 2017/18 to 2020/21; with 99% of all planning applications received being local.

During Q1 2020/21, the first full quarter impacted by the restrictions put in place due to the coronavirus pandemic, the number of applications received was 2,309. This was the lowest number received in any quarter since the series began in April 2002. The following four quarters recorded consecutive increases, peaking in Q1 2021/22. In total there was 13,600 applications received in 2020/21, the highest annual number since 2011/12.

In contrast, there was 10,025 planning applications received during 2023/24, the lowest number of applications received in any year since records began in on 2002/03. The 10,025 received in 2023/24 represented a decrease of 11% from the previous year (11,217).

In the first quarter of 2024/25 there were 2,538 planning applications received which was similar to the number received in the previous quarter.

Table 2: *Number of planning applications received by planning application type (Q1 2019/20 – Q1 2024/25)*

Year	Quarter	Local	Major	Regional	Total
2019/20	Apr-Jun	3,367	32	0	3,399

2024/25	Apr-Jun	2	9	2

### Statutory consultations response times

During 2019/20 the proportion of statutory consultations responded to on time<sup>5</sup> was 69%, this rate increased to 76% in 2020/21, returning to 69% the following year and 72% in 2022/23. It is noteworthy that a much higher level of statutory consultation was carried out in 2021/22 (27,191) when compared to other years in the series. The response rate for 2023/24 was 74%.

The response rate for the first three months of 2024/25 was 80%, this is the highest quarterly rate reported across the series since reporting began and represents an increase from the 74% reported in both the previous quarter and the same period a year earlier.

Table 4 provides a breakdown of responses to statutory consultations raised each quarter since reporting began in in 2019/20.

<sup>3</sup> Ratio for based on count of the five years data reported.

<sup>4</sup> Some consultations within each financial year will relate to planning applications that have been received in an earlier financial year. Although the counts of planning applications received and statutory consultations raised within a given period are not directly related, it provides an indicative picture of the level of statutory consultation taking place on planning applications.

<sup>5</sup> Includes those responded to within the 21-day target and the extended target, where applicable.

Table 4: *Number of responses to statutory consultations received within each quarter by planning application type (Q1 2019-20 – Q1 2024/25)*

<b>Year</b>	<b>Quarter</b>	<b>On-time</b>	<b>Total</b>	<b>% On-time</b>
2019/20	Apr-Jun	4,447	6,515	68%
	Jul-Sep	4,233	6,103	69%
	Oct-Dec	4,187	6,085	69%
	Jan-Mar	3,836	5,387	71%
2020/21	Apr-Jun	3,418	4,325	79%
	Jul-Sep	4,778	6,342	75%
	Oct-Dec	4,659	6,325	74%
	Jan-Mar	5,143	6,729	76%
2021/22	Apr-Jun	5,314	7,440	71%
	Jul-Sep	4,595	7,183	64%
	Oct-Dec	4,288	6,383	67%
	Jan-Mar	4,564	6,185	74%
2022/23	Apr-Jun	4,966	6,559	76%
	Jul-Sep	4,512	6,099	74%
	Oct-Dec	3,475	5,070	69%
	Jan-Mar	4,533	6,561	69%
2023/24	Apr-Jun	4,579	6,225	74%
	Jul-Sep	3,827	5,024	76%
	Oct-Dec	3,689	4,925	75%
	Jan-Mar	4,453	6,050	74%
2024/25	Apr-Jun	4,194	5,244	80%

Chart 2 illustrates the number of responses to statutory consultations quarterly by response status from 2022/23. As with previous reports, the number of outstanding statutory consultations is highest in the most recent quarter, primarily a result of lifting the information at a point in time. Quarter four in each year has a higher proportion of outstanding than any other quarter within that year due to the annual position becoming fixed shortly after the year end, with no further revisions being made. Chart 3 provides a proportionate breakdown of these responses.

Chart 2: Number of responses to statutory consultations received by response status

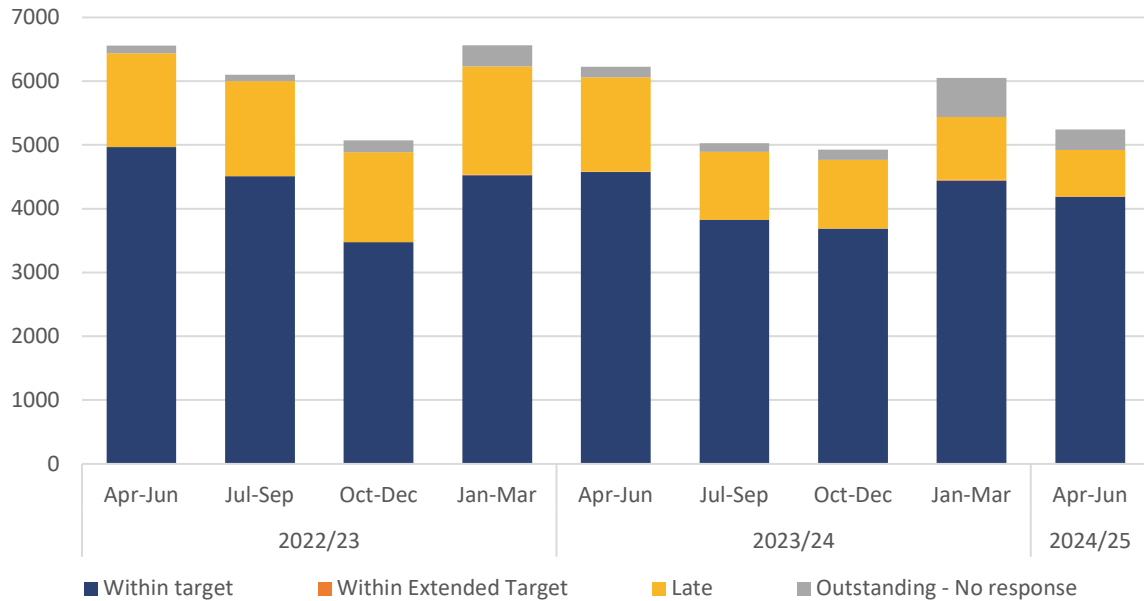

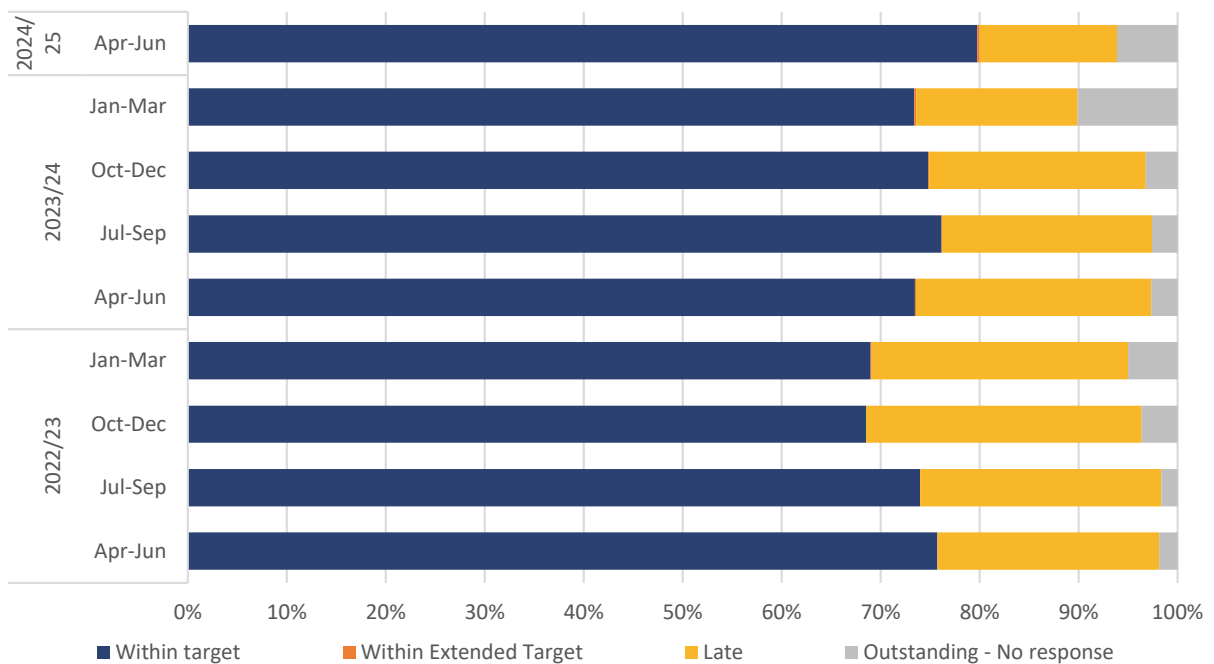

Chart 3: Responses to statutory consultations received by response status (proportions)

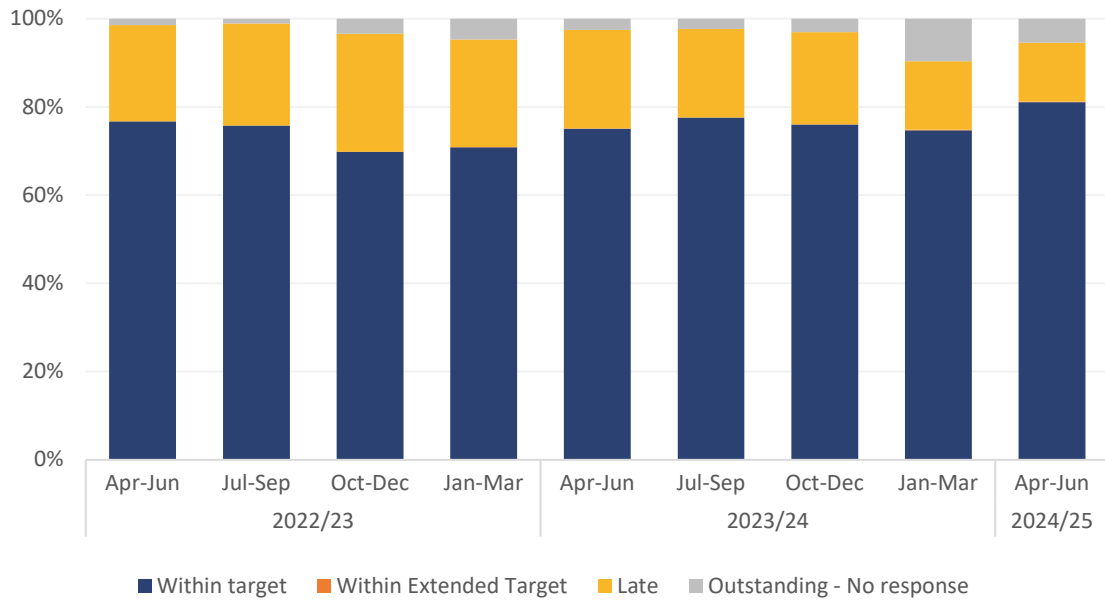

The response rate for statutory consultations responded to on time<sup>6</sup> varies from quarter to quarter and year to year. In broad terms the quarterly response rate on-time over the last five years has ranged between 64-80% for all statutory consultations. For consultations related to local planning applications the response rate on-time has ranged between 68-81%, and for consultations related to major planning applications ranging between 43-66%.

In the first quarter of 2024/25 80% of responses to statutory consultations were on time, the highest proportion of consultations responded to on-time since the series began. Response to statutory

<sup>6</sup> Includes those responded to within the 21-day target and the extended target, where applicable.

consultations on locals is reported at 81%, majors at 64% and regionally significant at <0.1% (three consultations). See Charts 4a, 4b and 4c for detail of quarterly performance.

**Chart 4a: Responses to statutory consultations received for local planning applications by response status (proportions)**

**Chart 4b: Responses to statutory consultations received for major planning applications by response status (proportions)**

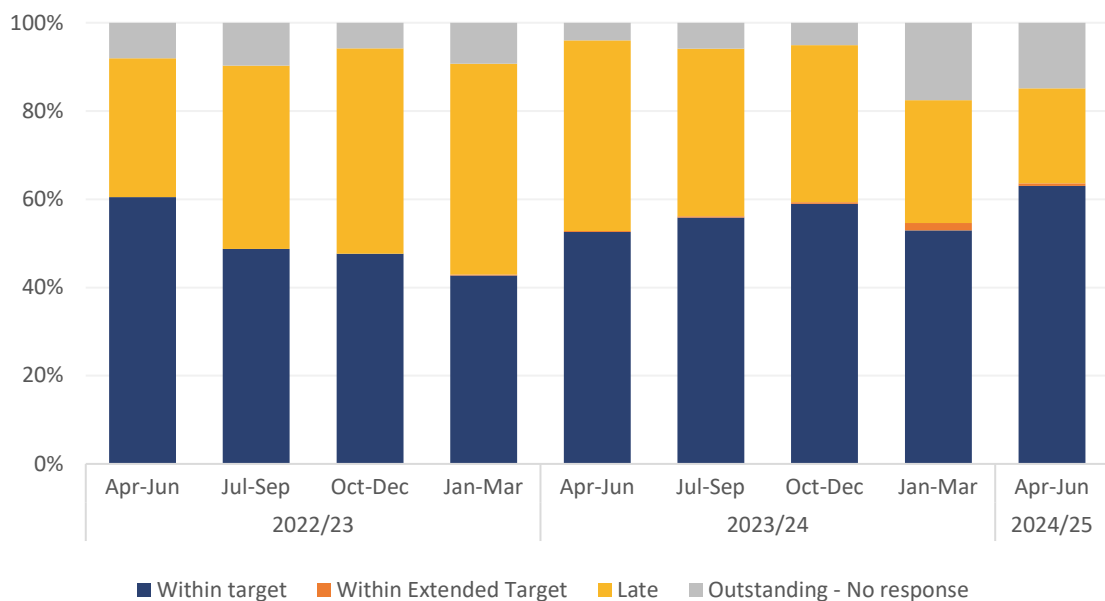

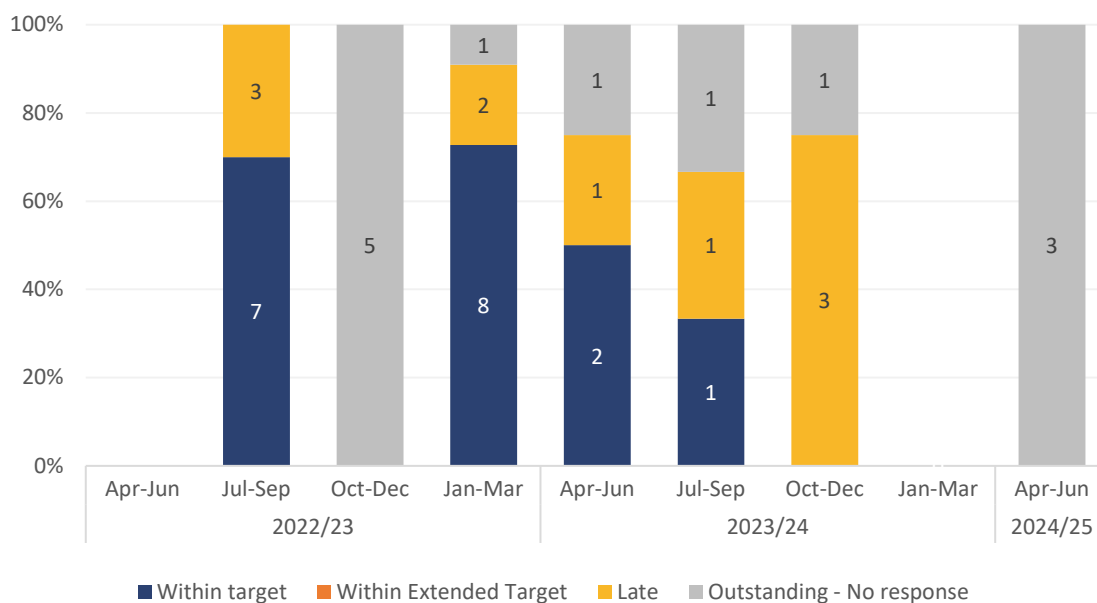

Chart 4c: *Responses to statutory consultations received for regionally significant planning applications by response status (proportions)*

Note: due to the small numbers of responses to statutory consultations on regionally significant ('regional') applications, associated proportions reported in the above chart should be treated with caution; the numbers of such responses have been included as data labels.

### 2024/25 in more detail – statutory consultee analysis

Statutory consultations received by statutory consultees during the first three months of 2024/25 are presented in Table 5 below<sup>7</sup>.

Table 5: *Number of statutory consultations received by planning application type, Q1 2024/25*

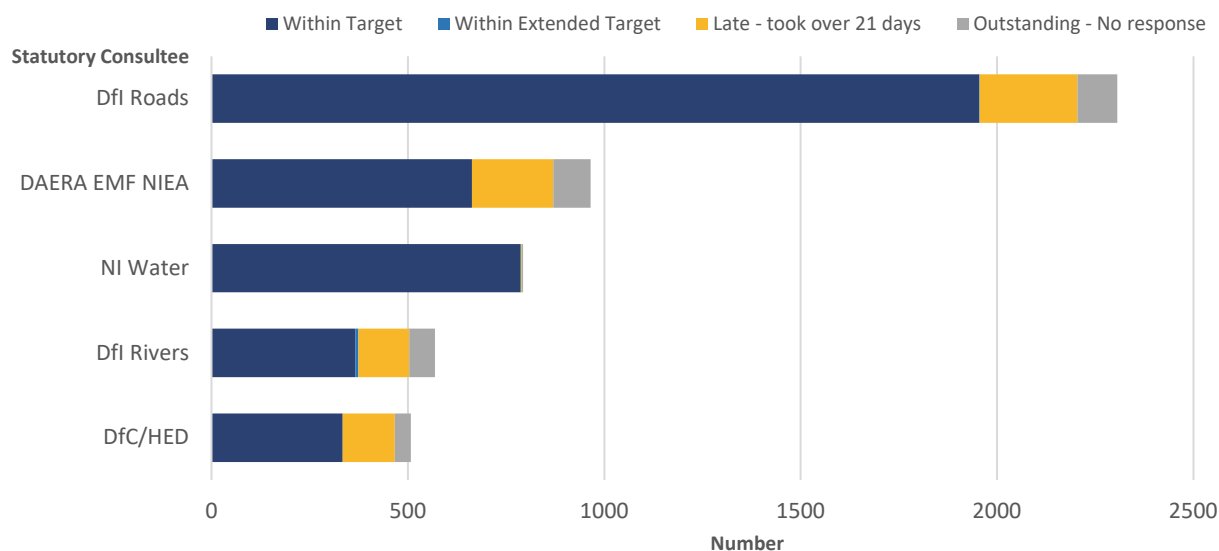

Quarter	Local	Major	Regional	Total
Apr-Jun	4,884	357	3	5,244

Of the 5,244 statutory consultations received in the first quarter of 2024/25, DfI Roads received 44%, DAERA EMF NIEA 18%, NI Water 15%, DfI Rivers 11% and DfC / HED 10%. Together these five consultees accounted for 98% of the statutory consultations raised during the first three months of 2024/25 (Chart 5).<sup>8</sup> This is like the position recorded in previous quarters.

<sup>7</sup> Note: the number of statutory consultations raised by planning authorities in each period will equal the number of statutory consultations received by statutory consultees in the same period. In effect, these terms are interchangeable.

<sup>8</sup> See [User Guidance](#) for a full list of key statutory consultees.

Chart 5: *Number of responses to statutory consultations received by statutory consultee and response status, 2024/25 Q1 (5 most common consultees)*

During the first quarter of 2024/25 across all statutory consultees the proportion of responses received on time<sup>9</sup> ranged from 48% – 100%. In all, 80% of statutory consultations were responded on time during the first three months of 2024/25, this is the highest percentage of consultations recorded on time across the series reported.

Table 6 provides response information for Q1 2024/25 for each statutory consultee.

Table 6 *Number of responses to statutory consultations received by statutory consultees, Q1 2024/25*

Statutory Consultee	On time	Total	% on-time
DfI Roads	1,956	2,306	85%
DAERA EMF NIEA	663	965	69%

## User guidance

### Data source

An extract of all consultations/advice queries raised from 1 April 2024 to 30 June 2024 were transferred on in August 2024 from the Planning Portals. The data were then validated. The relevant data is lifted at least one month after the end of the reference period to allow for the 21-day target response date, which applies to most statutory consultations, to have elapsed.

### Reporting

The Planning Portals were introduced in June (Mid Ulster) and December 2022 (all other planning authorities) and will have had some impact on the quality of the data for level of consultation and the management of consultation responses. This impact whilst considered to be minimal may cause some changes at lower levels of data disaggregation. For this reason, caution should be taken when using data from 2022/23.

**The figures contained in this report are extracted from the Planning Portals, are management information, and should not be treated as official statistics.**

### List of key statutory consultees

- Belfast City Airport
- Belfast International Airport
- City of Derry Airport
- Department of Agriculture, Environment and Rural Affairs (DAERA) Environment, Marine and Fisheries (EMF) and Northern Ireland Environment Agency (NIEA)
- Department for Communities (DfC) / Historic Environment Division (HED)
- Department for the Economy (DfE) / Geological Survey of Northern Ireland (GSNI)
- DfI Rivers
- DfI Roads
- Health and Safety Executive Northern Ireland (HSENI)
- Northern Ireland Housing Executive (NIHE)
- Northern Ireland Water.
