South Eastern Health and Social Care Trust

Paper No. SET/10/2022

Integrated Performance Management & Accountability Framework
Corporate Scorecard
January 2022

Contents

Introduction

This report presents the monthly performance against:

- Agreed population health and well-being outcome measures as outlined in the Draft Programme for Government (2016-21),
- Plan targets and indicators of performance drawn from the Health and Social Care Draft Commissioning Plan 2019/20

The report is divided into two sections:

- Section 1: **SET Outcomes**. This section includes performance against; PfG indicators; Department of Health indictors and internally defined directorate level Outcomes and Key Performance Indicators (KPIs) including Safety, Quality and Experience (SQE).
  A dashboard is provided on a bi-annual basis to demonstrate the Trust's contribution to the achievement of the following PfG Outcomes:
  - *We enjoy long, healthy active lives*
  - *We care for others and help those in need*
  - *We give our children and young people the best start in life*
  - *We have a more equal society*
  - *We have a safe community where we respect the law and each other*

We will provide an update on a bi-annual basis. Full report can be found at https://view.pagetiger.com/pfg-outcomes/improving-outcomes
Safety, Quality and Experience performance is reported under this section on a monthly basis under the Department of Health led PfG outcome, We live long, health, active lives.

- Section 2: Performance against commissioning plan targets. This section contains separate sections for each of the directorates. The first few pages give a dashboard of performance;
  - Highlight scores against each of the Commissioning Plan targets
  - Performance against each of the HSC Indicators of Performance
  - Performance against each of the directorate KPIs

This is followed by a detailed breakdown of performance against each of the Commissioning Plan targets with, where appropriate, a 12 month performance trend analysis. The end of this section contains performance improvement trajectories.

Glossary of Terms

AH	Ards Hospital
AHP	Allied Health Professional
ASD	Autistic Spectrum Disorder
BH	Bangor Hospital
BHSCT	Belfast Trust
C Diff	Clostridium Difficile
C Section	Caesarean Section
CAUTI	Catheter Associated Urinary Tract Infection
CBYL	Card Before You Leave
CCU	Coronary Care Unit
CHS	Child Health System
CLABSI	Central Line Associated Blood Stream Infection
CNA	Could Not Attend (eg at a clinic)
DC	Day Case
DH	Downe Hospital
DNA	Did Not Attend (eg at a clinic)
ED	Emergency Department
EMT	Executive Management Team
ERCP	Endoscopic Retrograde Cholangiopancreatography
ESS	Employee Self Service (in relation to HRPTS)
FIT	Family Intervention Team
FOI	Freedom of Information
HCAI	Health Care Acquired Infection
HR	Human Resources
HRMS	Human Resource Management System
HRPTS	Human Resources, Payroll, Travel & Subsistence
HSCB	Health & Social Care Board
HSMR	Hospital Standardised Mortality Ratios
ICU	Intensive Care Unit
IiP	Investors in People
IP	Inpatient
IP&C	Infection Prevention & Control
KPI	Key Performance Indicator
KSF	Key Skills Framework
LVH	Lagan Valley Hospital
MPD	Monitored Patient Days
MRSA	Methicillin Resistant Staphylococcus Aureus
MSS	Manager Self Service (in relation to HRPTS)
MUST	Malnutrition Universal Screening Tool
NICAN	Northern Ireland Cancer Network
NICE	National Institute for Health and Clinical Excellence
NIMATS	Northern Ireland Maternity System
OP	Outpatient
OT	Occupational Therapy
PAS	Patient Administration System
PC&OP	Primary Care & Older People
PDP	Personal Development Plan
PfA	Priorities for Action
PfG	Programme for Government
PMSID	Performance Management & Service Improvement Directorate (at Health & Social Care Board)
RAMI	Risk Adjusted Mortality Index
SET	South Eastern Trust
S&LT	Speech & Language Therapy
SQE	Safety, Quality and Experience
SSI	Surgical Site Infection
TDP	Trust Delivery Plan
UH	Ulster Hospital
VAP	Ventilator Associated Pneumonia
VTE	Venous Thromboembolism
W&CH	Women and Child Health
WHO	World Health Organisation
WLI	Waiting List Initiative

SECTION 1

SET OUTCOMES

Programme for Government Framework

PfG Outcome: We enjoy long, healthy, active lives

Indicators

PfG:

% population with GHQ12 scores >/= 4

Number of adults receiving social care services at home or self-directed support for social care as a % of the total number of adults needing care

% people who are satisfied with Health and Social Care

Preventable mortality

Healthy life expectancy at birth

Confidence of the population aged 60 years+ (as measured by self-efficacy)

Gap between highest and lowest deprivation quintile in health life expectancy at birth

DoH:

Improving the health of our people

Improving the quality and experience of healthcare

Ensuring the sustainability of our services

Supporting and empowering staff

Trust:

Reduce preventable deaths

Reduce unplanned Hospital admissions

Increase independent living

Decrease mood and anxiety prescriptions

Primary Measures

Recovery College

Emergency admissions rate

Improve support for people with care needs The number of adults receiving personal care at home or direct payments for personal care, as a percentage of the total number of adults needing care

Improve mental wellbeing

Improve end of life care - Percentage of the last 6 months of life which are spent at home or in a community setting

SQE Performance

Make Contact Count

Health Promotion

Age Friendly Societies

Falls Prevention

Smoking Cessation

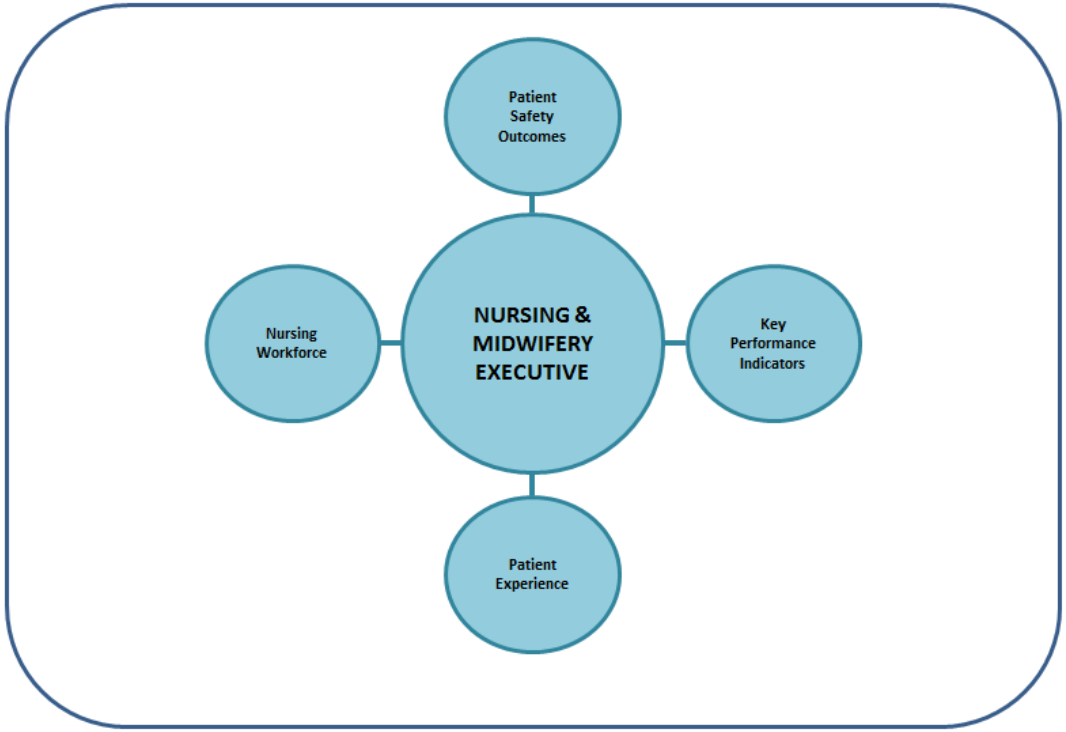
Enhanced Care at Home

Ambulatory Care Hubs

SDS

Memory Clinics

South Eastern Healthth
and Social Care Trustst



Safe & Effective Care Scorecard February 2022

SAFE & EFFECTIVE CARE - All targets reported one month in arrears. Figures correct as of 07.02.2022

SAFE & EFFECTIVE CARE SCORECARD

Introduction

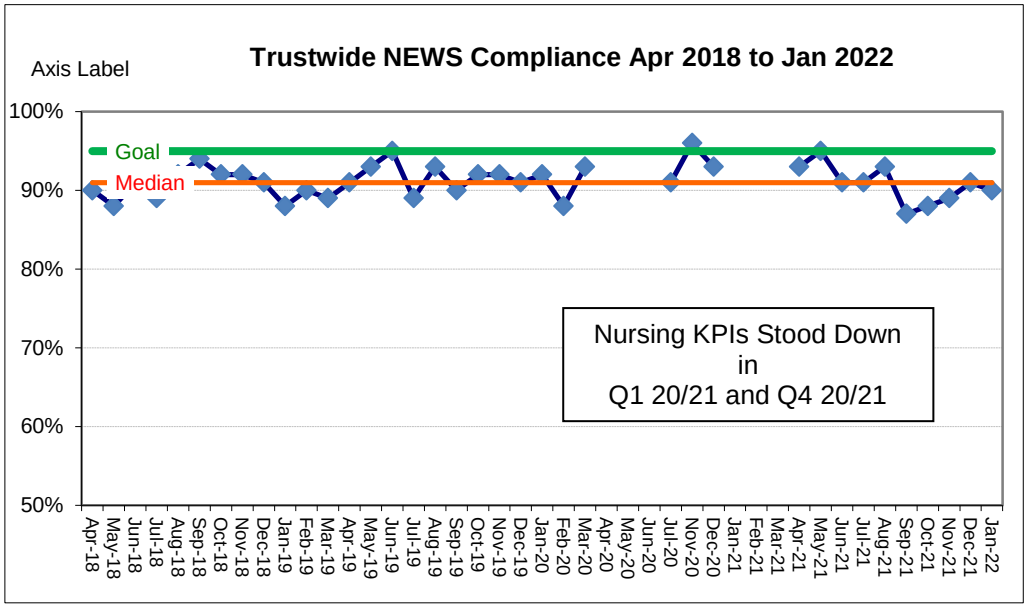
We all know that measurement is integral to improvement in healthcare but how do we know whether or not we have actually made a difference and if the care being delivered is getting better, staying the same or getting worse each year? What we do not always take into account is the variation in the way that services are delivered – by individual departments, people and even different types of equipment. All of these differences in the way things are done lead to differences in the way services are delivered.

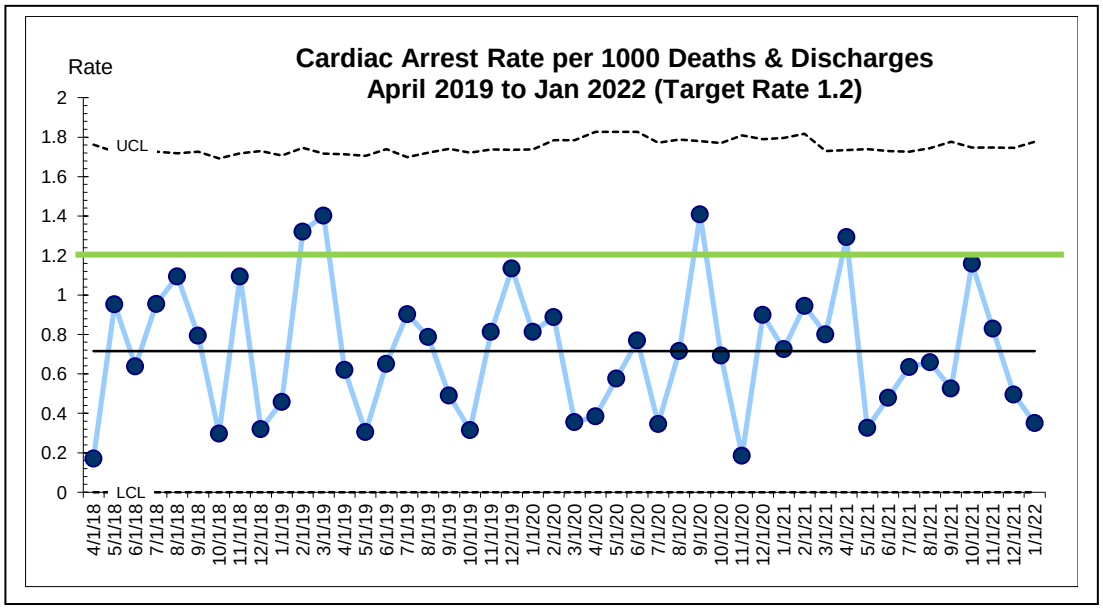
The scorecard details compliance of the regional commissioning KPIs as directed by the Public Health Agency each year. The results are displayed within run charts indicating a compliance score, the KPI target compliance and the average performance of the Trust.

SAFE & EFFECTIVE CARE - All targets reported one month in arrears. Figures correct as of 07.02.2022

TRUSTWIDE NEWS COMPLIANCE

The NEWS score is aggregated from 6 parameters that should be routinely measured in hospital and recorded on the clinical chart. The aggregated score will then inform the appropriate response required and the frequency by which the next set of observations should be carried out. Compliance with this process is measured across all wards each month through a random sample of 10 patient charts in each area.





OVERALL NEWS ACTION POINTS/UPDATE

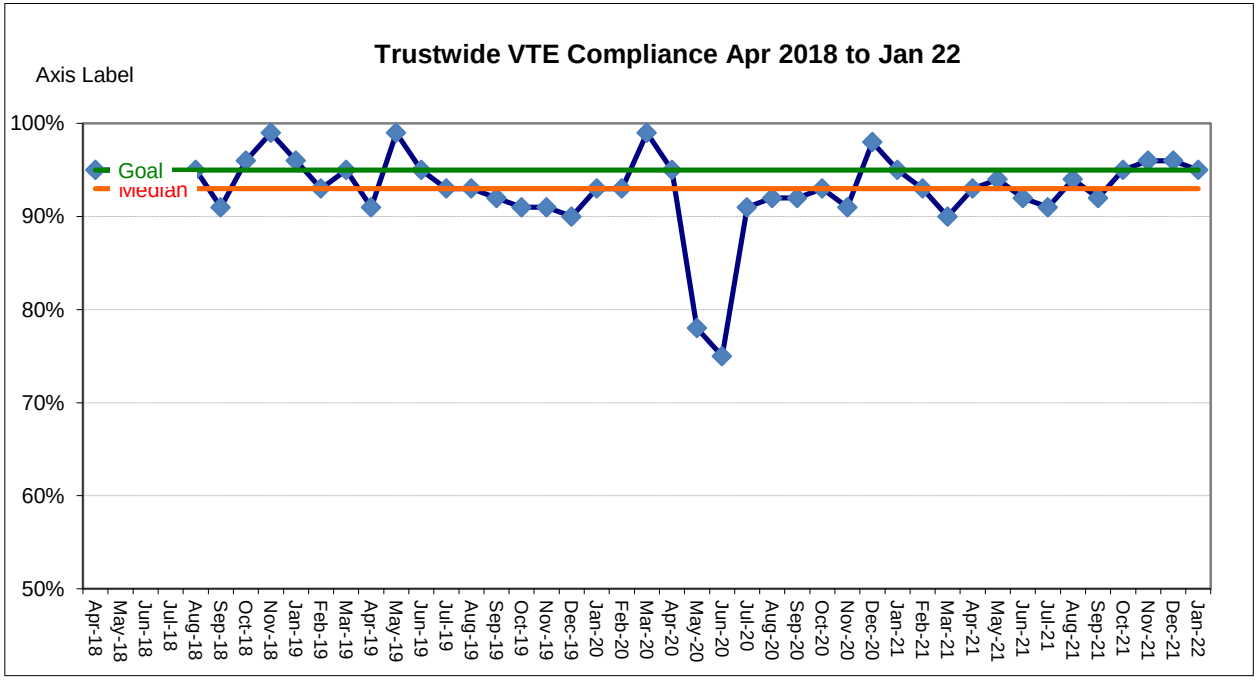
NEWS2

- The Deteriorating Patient Group continues to focus on NEWS2, Cardiac Arrests and Sepsis in their improvement work.
- This will include a focus on the assessment of patients appropriate for the use of scale 2 and the recording of this decision for clear communication.

SAFE & EFFECTIVE CARE - All targets reported one month in arrears. Figures correct as of 07.02.2022

TRUSTWIDE VTE COMPLIANCE

Trusts will sustain 95% compliance with VTE risk assessment across all adult inpatient hospital wards throughout 2021/22.



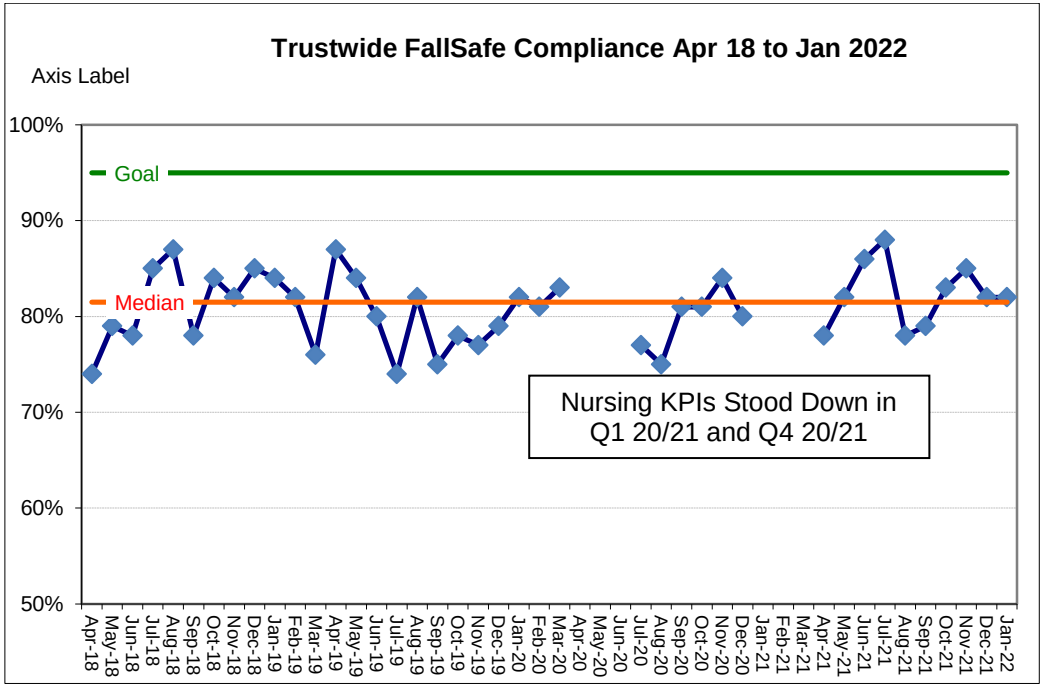
OVERALL VTE ACTION POINTS/UPDATE

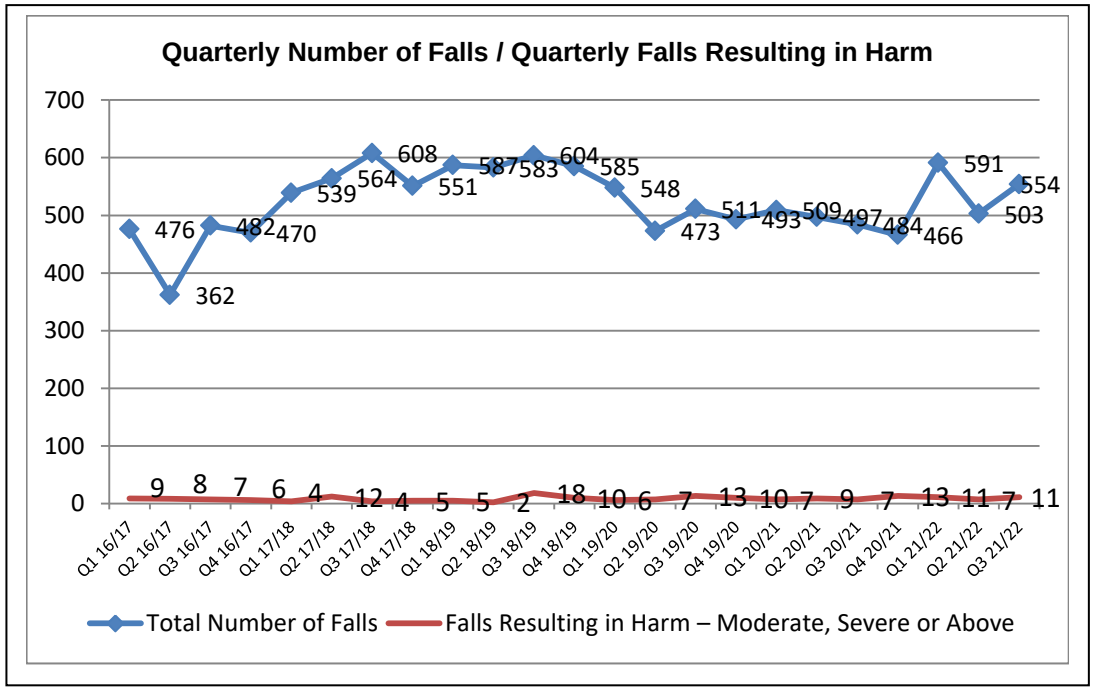
The PHA is aware that auditing of VTE Compliance will be carried out quarterly as agreed at the SQE Leadership Committee. Current overall compliance remains above the expected goal at 96%.

SAFE & EFFECTIVE CARE - All targets reported one month in arrears. Figures correct as of 07.02.2022

TRUSTWIDE FALLSAFE COMPLIANCE

Falls prevention requires a wide range of interventions and the FallSafe bundles aim to assist acute adult hospital wards to carefully assess patients' risk of falling. The bundles, as part of a quality improvement project introduce simple but effective, evidence-based measures that may reduce risk of falling by 20-30%. All patients are assessed for falls risk using Bundle A. Additionally, patients aged 50-64 years who are assessed to be at higher risk of falling because of an underlying condition are assessed using Bundle B.





OVERALL FALLSAFE ACTION POINTS/UPDATE

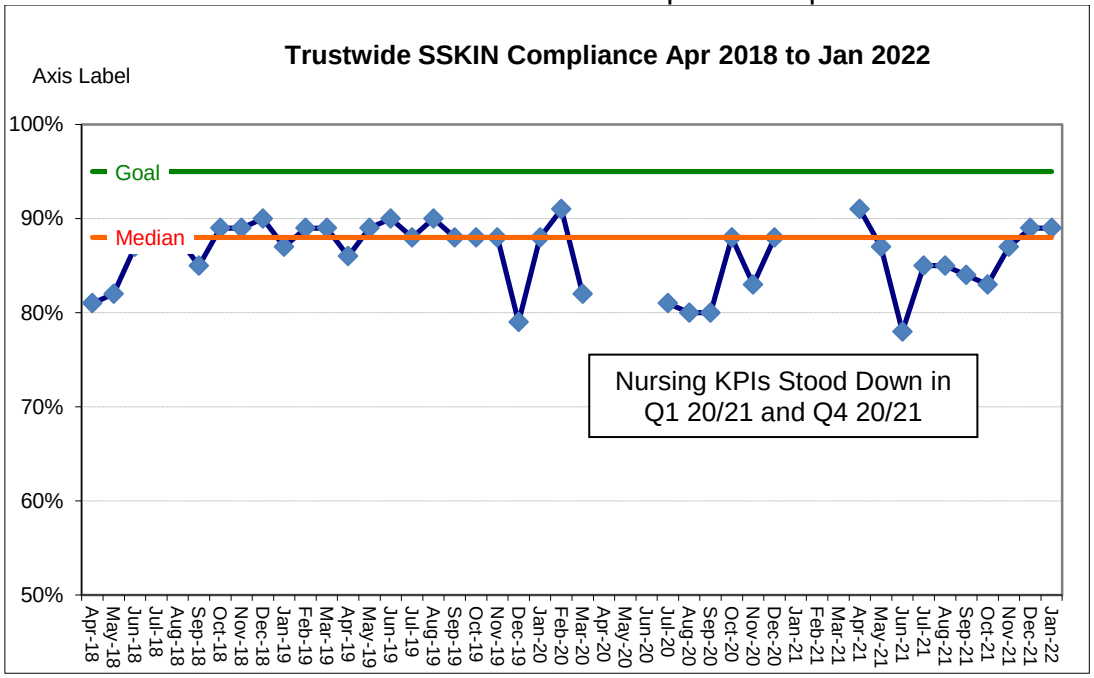
The Falls P&M Service is able to identify the areas where falls incidents are increasing via the Hospital Falls Dashboard created by the Risk Advisory Service. The service also identifies areas of compliance that require an address via Qlikview. This primarily forms our direction of improvement work, alongside learning from incidents. Falls incidents have increased by 9% in the last quarter.

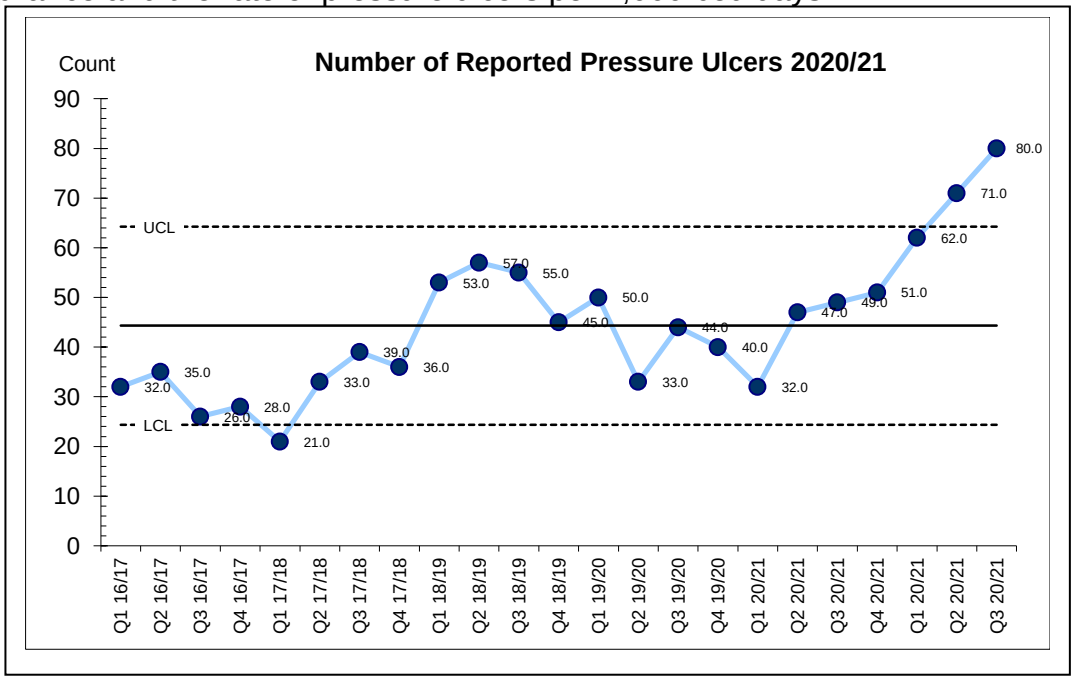
Independent auditing completed by SEC and may account for reduction in compliance. To address, KPI workshop took place in Jan 22 with SEC. Note: extreme pressures at ward level inclusive of corridor beds reported. The elements of the audit that result in below goal compliance continue to be L/S BP and urinalysis completion. Note: system adjustments unable to be completed on eDams which could significantly improve audit compliance. Note: compliance may have been reached as a result of less than 10 records being audited. Note: does not appear that ward moves have significantly increased falls rates overall.

SAFE & EFFECTIVE CARE - All targets reported one month in arrears. Figures correct as of 07.02.2022

TRUSTWIDE SSKIN COMPLIANCE

From April 2016 the Trust has measured the Incidents of pressure ulcers (grade 3 & 4) occurring in all adult inpatient wards & the number of those which were avoidable. Trusts will monitor and provide reports on bundle compliance and the rate of pressure ulcers per 1,000 bed days





OVERALL SSKIN ACTION POINTS/UPDATE:

A total of 19 facility acquired pressure ulcers were identified in January 2022; 9 stage 2 ulcers and 10 stage 3 and above (severe).
These pressure ulcers were identified in the following areas:

- Medicine = 4 (2 Stage 2 and 2 Stage 3 and above)
- Surgery= 8 (4 Stage 2 and 4 Stage 3 and above
- Unscheduled Care = 5 (1 Stage 2 and 4 Stage 3 and above)
- PCOP In-Patient = 2 (2 Stage 2)

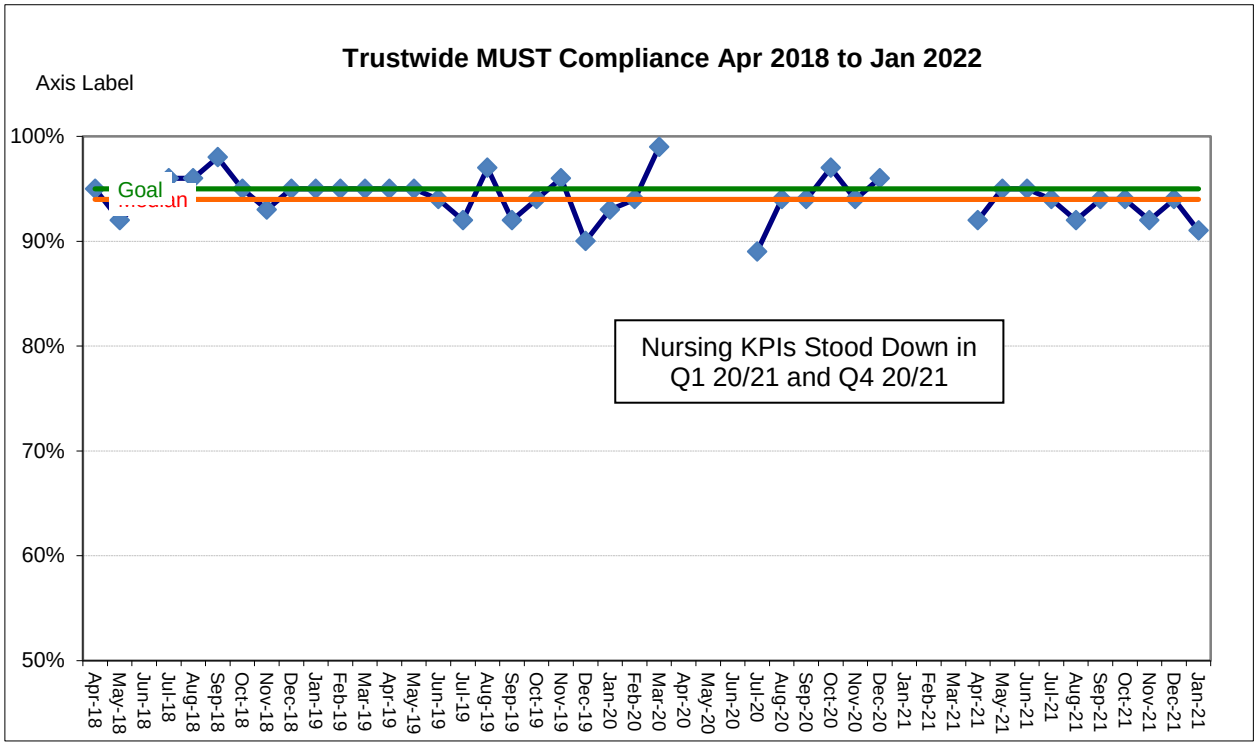
Following root cause analysis it was determined that 1 of the 10 severe pressures ulcers were avoidable, due to poor evidence of preventative measures documented. 1 of the unavoidable severe pressure ulcers was due to proning a patient with Covid in ICU.

The Tissue Viability team continue to highlight any areas for learning and are working closely with the Lead nurses in all areas to develop and deliver bespoke training, particularly around documentation and prevention strategies. All aspects of learning are included in the Trust mandatory updates.

SAFE & EFFECTIVE CARE - All targets reported one month in arrears. Figures correct as of 07.02.2022

TRUSTWIDE MUST COMPLIANCE

Good nutrition is fundamental for health, healing and recovery from illness and injury. Nutritional screening is a first-line process of identifying patients who are already malnourished or at risk of becoming so and should be undertaken by the nurses on patient admission to hospital.



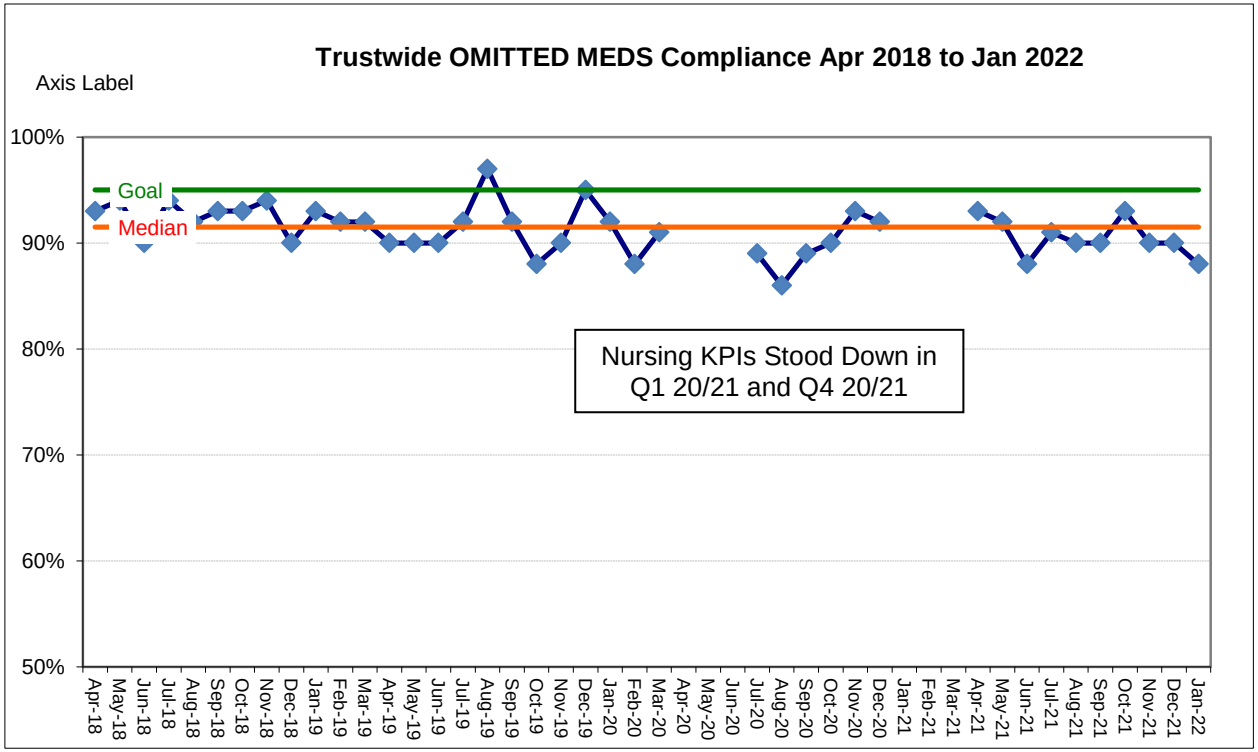
OVERALL MUST ACTION POINTS/UPDATE:

Compliance with MUST screening continues to be high and the 'Next Step's audit validates this as well as following up on nutritional care in line with risk status.

SAFE & EFFECTIVE CARE - All targets reported one month in arrears. Figures correct as of 07.02.2022

TRUSTWIDE OMITTED MEDICATION COMPLIANCE

95% compliance with fully completing medication Kardexes (i.e. no blanks). The omitted medicines regional group has been formed to set direction and inform strategy on omitted and delayed medicines for adults in patient wards.



OVERALL OMITTED MEDS ACTION POINTS/UPDATE:

Agreement had been reached regionally for all NI Trusts to use the Medication Safety Thermometer Tool to monitor the number of local omitted doses. Unfortunately this national tool has been stood-down. There have been no further meetings to discuss an alternative way forward.

TITLE	TARGET	NARRATIVE	PROGRESS					PROGRESS
			Q3 20/21	Q4 20/21	Q1 21/22	Q2 21/22	Q3 21/22	
Environmental Cleanliness	To at least meet the regional cleanliness target score of 90%	The Policy for The Provision and Management of Cleaning Services issued by the DHSSPS in January 2015 requires Very High Risk and High Risk Scores to be reported for Cleaning and Nursing only. As a consequence of removing estate condition issues, the acceptable level of cleanliness in Departmental Audits which was set at 85% in Cleanliness Matters is increased to 90%. The removal of the Estates Services scores has contributed to the observed increase in overall scores. Overall the Trust continues to meet this higher threshold and continues to exceed its own internal target for all facilities, although individual facilities may on occasions not meet this target. Financial Break Even	South Eastern Trust must deliver financial breakeven by 31st March 2020	Trust is forecasting a year end breakeven position, The Trust Delivery Plan (TDP) details measures on how the Trust will address an identified deficit of £3.6m, due to emerging pressures in 2018-19. The plan is reliant on the Trust identifying £0.75m in savings over the second half of the financial year. The Trust has made progress in addressing some of the shortfall. However a deficit of £0.55m remains. The Trust will continue to identify further savings/cost control measures of this value by year-end
