# Interdepartmental Homelessness Action Plan 2019-20

Year 2 Report

This document contains the results for the second year (2019–20) of the Interdepartmental Homelessness Action Plan.

The Interdepartmental Homelessness Action Plan was developed to complement the NI Housing Executive’s Homelessness Strategy and focuses on addressing gaps in those non-accommodation services that have the most impact, or have the potential to more positively impact, on the lives and life chances of people who are homeless and those who are at most risk of homelessness.

Following an initial Homelessness Workshop involving Government Departments, statutory partners, homelessness service providers and service users, agreement was reached on five main priority areas:

- 1. Health and wellbeing, including mental health and substance misuse;**
- 2. Education and awareness raising – children, young people, schools and providers;**
- 3. Support for those leaving places of care, children’s residential and foster care, prisons, hospitals, mental health facilities;**

- 4. Support for families including support for those experiencing domestic violence, and community support mechanisms;**

- 5. Employability, financial capability and access to benefits.**

A total of 13 actions from these priority areas were identified and taken forward.

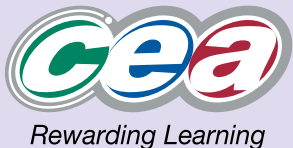

The Homelessness Strategy Steering Group (HSSG), which is chaired by the Department for Communities (DfC) and includes representation from the Departments of Health (DoH, Department of Justice (DoJ), Department of Education (DE), statutory agencies and the voluntary sector, had overall responsibility for monitoring and reporting on the Action Plan. HSSG reviewed quarterly progress reports on the Action Plan and signed-off on the Year 2 results. HSSG will also be responsible for signing-off any future iterations of the Action Plan. It is noted that some of the actions have not been fully achieved due to the Covid-19 pandemic where resources were reallocated to deal with the crisis.

 <p><b>DoH</b> Department of Health <a href="http://www.health-ni.gov.uk">www.health-ni.gov.uk</a></p>	<p>1. Pilot a Homeless Healthcare Hub in Belfast to provide outreach care to those who are sleeping rough or in hostel accommodation.</p> <p>The proposal is to create a multi-disciplinary team hub in Belfast to provide care in the community for people experiencing homelessness, supported by enhanced primary care access.</p> <p>This hub would wrap multi-disciplinary input around the existing BHSCCT homeless nursing team, and deliver joined up services in the community including nursing, GP, dental and podiatry. The hub will remove barriers to accessing health care by:</p> <ul style="list-style-type: none"> <li>• Co-location of staff and services in a location which provides easy access for homeless people;</li> <li>• Providing accessible services to people with a chaotic lifestyle, for example drop in and outreach clinics;</li> <li>• Facilitating multidisciplinary team working.</li> </ul> <p>Outreach will be provided from the hub into hostels, other voluntary settings and on the streets. This prototype hub will allow assessment of feasibility of the service, evaluation and regional learning to inform development of improved care pathways for people experiencing homelessness across Northern Ireland.</p>	<p><b>Outcome(s)</b></p> <p>Improved access to health and social care services for people who are homeless.</p> <p>Improved service user experience.</p> <p><b>Milestone(s)</b></p> <p>Subject to availability of funding:</p> <p>By 1 February 2019, begin delivery of additional primary care and Belfast homelessness nursing team services (including additional nursing, podiatry, dental and administration services).</p> <p>By 1 May 2019, open hub premises as base for enhanced services outlined above.</p> <p>By May 2020, complete evaluation of activity, impact and outcomes delivered through pilot.</p>	<p>Unable to be completed due to Covid 19</p>

 <p>Department of Health www.health-ni.gov.uk</p>	<p>2. The model for the provision of needle and syringe exchange services will be reviewed and revised to reduce the risk of blood borne viruses and improve accessibility, including for those who are homeless.</p>	<p><b>Outcome(s)</b></p> <p>Reduce the harm related to the use and misuse of drugs and reduce prevalence of blood borne viruses among the people who experience homelessness and the general population.</p> <p><b>Milestone(s)</b></p> <p>Review to be completed and agreed by end April 2019;</p> <p>Revised service model to be in place by July 2019 October 2019 (subject to resources) NB Target date amended in June 2019</p>	<p>Five NSES training courses were delivered to service providers in 2019/20, one of which was to the Belfast Health Inclusion Team prior to them commencing delivery of the NSES.</p> <p>PHA has commissioned Extern to develop a Needle Exchange webinar, due to the restrictions in delivering face to face training. The webinars will provide support to existing service providers to continue service delivery as well as support some new service providers as an introduction to the service.</p> <p>The Community based needle exchange pilot model has adapted service delivery to an outreach model during the current restrictions to ensure the needs of service users continue to be met. The service continues to work with a cohort of 25-30 clients and delivery is monitored in response to need. The service is working with hostels to support access to NSES and supporting homeless clients.</p> <p>The Simon Community which currently delivers a Low Threshold Service within the SE locality will be commencing needle exchange service delivery within hostels as an interim measure during the current restrictions.</p>
