## Neighbourhood Renewal Area

Annual Report

2018/19

### **About Neighbourhood Renewal -**

The Neighbourhood Renewal Programme aims to reduce the social and economic inequalities which characterise the most deprived areas. It does so by making a long term commitment to communities to work in partnership with them, to identify and prioritise needs and co-ordinate interventions designed to address the underlying causes of poverty. Neighbourhood Renewal Partnerships are made up of representatives of local community interests together with appropriate Government Departments, public sector agencies, private sector interest and local elected representatives.

### **About Ballymena Neighbourhood Renewal Partnership -**

The Neighbourhood Renewal Programme, Ballymena Partnership was set up in 2005 to oversee the development and delivery of the local Neighbourhood Renewal Action Plan. The Partnership currently comprises 23 members which include representatives from local communities, voluntary organisations, elected representatives and local statutory organisations. It currently meets on a bi monthly basis and its administration services are provided through a Coordinator and Administrator within Mid & East Antrim Borough Council.

The Partnership established 4 sub-groups to assist with the identification, development and where appropriate the delivery of projects which aim to address the Programmes 4 strategic objectives of community renewal, social renewal, economic renewal and physical renewal. The sub groups are categorised as Health; Economic and Employability; Education; and Community. Representation from appropriate local community, voluntary and statutory agencies has been sought to ensure added value to the process of developing projects that will deliver impact to the Neighbourhood Renewal area.

Regular meetings with partnership members and sub group members ensure that needs are discussed on an ongoing basis, in line with actions identified as part of the 'Putting People First' Community Plan. The potential for new projects and that projects are monitored in line with contractual requirements and agreed outcomes and working in partnership with agencies and community groups to make best use of resources and avoid duplication. The Coordinator and Administrator work closely with the Ballymena South Community Development Worker to provide support to community groups in relation to developing Good Governance, identifying training needs, capacity building, project development and monitoring and evaluation of programmes of work.

**It should be noted that Ballymena Partnership and Subgroups have all signed up to and abide by the Neighbourhood Renewal Code of Practice and Guiding Principles and subsequent Subgroup Terms of Reference.**

### **Breakdown of actual achievements for total expenditure**

Ballymena Neighbourhood Renewal Partnership in 2018/19 has continued to be successful with the delivery of 8 valuable projects.

The Ballymena Neighbourhood Renewal Partnership continues to build the capacity of groups from the Ballymena South area, who make representation on the Community Planning Partnership delivering on the Implementation plan and Putting People First strategy through collaborative working. Mid & East Antrim Borough Council is working with statutory and community partners through Neighbourhood Renewal to develop and implement a shared vision for the area. Key to this approach is ensuring that people and communities are genuinely engaged in decision making processes and outcomes on services needed for their area. Ballymena Neighbourhood Renewal Partnership is an excellent example of how local people have a voice when it comes to delivering better public services in their area. The Community Planning Partnership supports agencies in working together with the community to plan and deliver better services.

The delivery of new Neighbourhood Renewal Investment Fund projects has been hindered due to funding constraints within the Department for Communities however the projects are being developed where the need has been identified and should funding become available projects are in a position to apply for funding.

The partnership will continue to work for the benefit of the residents in the Neighbourhood Renewal Area for the remainder of the programme and will strive to secure further funding to address the needs identified locally.
