Neighbourhood Renewal Measurement of Outcomes Report

2018

Downpatrick Neighbourhood Renewal Area

Outcome Indicators

Downpatrick NRA

The Downpatrick Neighbourhood Renewal Area (NRA) has a total population of 6,169 in 2016. Approximately 62% of residents are of working age. There were 87% of residents who identified themselves as having a Catholic religion or religion brought up in, while approximately 10% identify themselves as having a 'Protestant and Other Christian (including Christian related)' religion or religion brought up in.

The level of benefit uptake in Downpatrick NRA has remained higher than those levels of Non NRAs throughout the period 2003-2017 although there has been a slight closing of the Gap for Income Support claimants.

There has been a narrowing of the gap in alcohol related deaths and teenage births, the other health indicators have seen a widening in the gap to non NRAs. Deaths to those aged under 75 have seen an increase from 2005.

Crime levels in Downpatrick have seen a decrease across most categories with the gap to Non NRAs narrowing as well, with the exception of drug offences and offences with a domestic abuse motivation. Total offences recorded for Downpatrick NRA have for the most part declined across the period 2003-2016, showing a reduction of 12% since 2003. The exception to this trend was for drug offences where Downpatrick NRA has one of the highest levels of offences per 1,000 population. The level of anti social behaviour has almost dropped by almost a third since 2005 which has also reduced the gap to Non NRAs considerably.

Purpose

Regardless of where a deprived area is located it will inherently have similar problems. For example, higher than average rates of unemployment, physical and mental ill health, lower levels of educational attainment, higher rates of crime and problems with quality and maintenance of the environment.

The main aim of the Neighbourhood Renewal Strategy is to close the gap in the quality of life between the most deprived neighbourhoods and the rest of society.

The statistical indicators presented here provide evidence on the absolute change that is being recorded across the key Neighbourhood Renewal outcomes, and whether there have been positive or negative movements over time in statistical data in relation to:

- a. Worklessness;
- b. Education;
- c. Health, and
- d. Crime and anti-social behaviour.

Where possible the data presented has been updated to reflect the publication of new data for additional years. In some cases however, such as for a number of the education indicators, this has not been possible as data is not available for Neighbourhood Renewal Areas (NRAs).

The Neighbourhood Renewal Code of Practice and Guiding Principles states that one of the responsibilities of the Neighbourhood Renewal Partnership is to develop and agree an Area Action Plan which seeks to improve the social, economic and environmental conditions by amongst others:

- identifying evidence based needs, and
- prioritising the needs of the area that are to be met.

The purpose of the information presented here is to provide an evidence base for the area to enable staff and members of the partnerships to identify and prioritise need. The information highlights, across a number of key economic and social outcomes, if the gap is closing.

The findings presented here along with the Area's Annual Report should be reflected upon when taking forward the annual review of the Action Plan as well as considering the effectiveness of the projects/interventions being supported in contributing to closing the gap.

User Notes

i. The information is broadly split into two parts:

- Gap Analysis Table and Summary
- Measuring of impact across each Key Outcome Indicator.

The Gap Analysis table and Summary provide a high level data across the key indicators on whether the Neighbourhood Renewal Area (NRA) has experienced a positive or negative outcome or if there has been relatively little change. The table allows the user to compare the NRA and non-NRAs baseline position and the most current year available. The colour blocking shows whether the indicator has improved (green), not changed (yellow) or deteriorated (red) when the most recent year available is compared with the baseline position. The final column in the table shows whether the gap between the NRA and non-NRAs has widened (red arrow), is unchanged (yellow arrow) or had narrowed (green arrow).

The measuring of the individual key outcome indicators provides data on a year by year basis across a given period. This information allows the user to examine the trend and variances and consider if there has been any outside influences, for example, the economic downturn.

ii. Care should be taken when interpreting a positive or negative outcome as the NRA may still be experiencing significant problems – improving but still significantly behind non-NRAs.

iii. Given the changes in the provision of welfare, some key indicators are reporting a closing of the gap. This may be due to changes in the rules for claiming particular benefits and the migration to new benefits, for example, some claimants might be transferred to Employment and Support Allowance if they have been claiming other benefits like Income Support or Incapacity Benefit.

iv. Caution is advised when interpreting change over time where numbers are small. This is particularly evident when examining our smaller NRAs. The Demography section of this report provides information relating to the population size and breakdown.

Please note that some trend data has been revised since the last NR Outcome Indicator report with the data presented here the most up-to-date available. This is particularly the case for the crime data.

Jobseekers Allowance

Jobseekers allowance claimants	2003	2004	2005	2006	2007	2008	2009	2010	2011	2012	2013	2014	2015	2016	2017*
Downpatrick NRA	5.1	4.8	4.7	3.7	3.4	3.2	6.4	8.0	8.5	9.4	9.7	8.9	8.1	6.0	4.9
Non Neighbourhood Renewal Area	2.5	2.4	2.0	1.9	1.7	1.6	3.0	4.0	4.1	4.2	4.5	3.9	3.0	2.6	2.1
Newry Mourne & Down LGD								5.3	5.8	5.7	5.7	4.8	3.6	2.9	2.2

(% of working age population, * 2017 figures for the NRA and non-NRA calculated using population for 2016)

Of those claiming Jobseekers Allowance in 2017 in Downpatrick NRA:

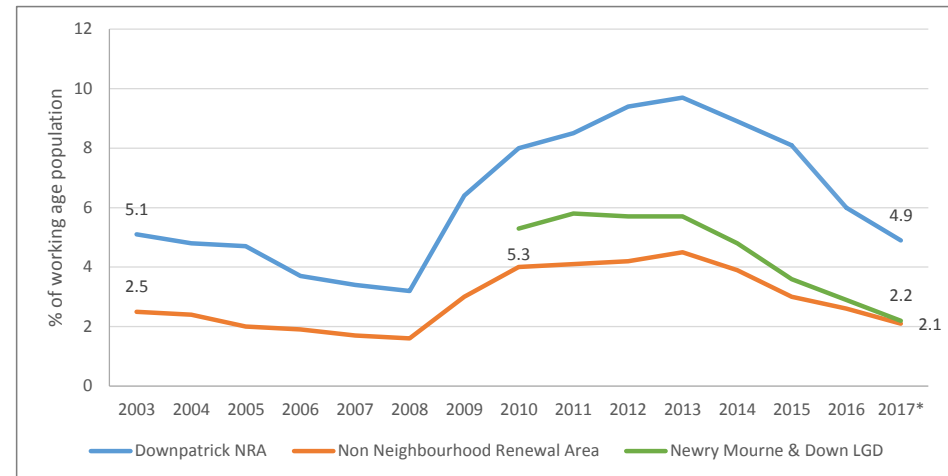

26% are under 25 (NEETS)

26% are deemed long-term unemployed (12 months and over)

Comparable figures for Non Neighbourhood Renewal Areas are:

24% are under 25 (NEETS)

31% are deemed long-term unemployed (12 months and over)

Income support

Income support claimants	2003	2004	2005	2006	2007	2008	2009	2010	2011	2012	2013	2014	2015	2016	2017*
Downpatrick NRA	26.8	18.3	17.6	18.5	18.3	17.9	17.7	16.3	15.8	14.6	12.3	9.7	7.9	7.8	8.6
Non Neighbourhood Renewal Area	12.5	6.4	6.3	6.2	6.0	5.8	5.8	5.4	5.1	4.8	3.9	3.0	2.4	2.4	2.3
