## EXECUTIVE SUMMARY

- This bulletin provides statistics for cases received (i.e. writs and originating summonses issued), cases disposed and final orders made in respect of mortgages in the Chancery Division of the Northern Ireland High Court for the period January to March 2015 and commentary on trends observed for this quarter in each year from 2007. During the period January to March 2015:
- There were 349 mortgage cases received (writs and originating summonses issued), a 60% decrease from the same period in 2014 (866). This is the lowest volume of cases received during the January - March quarter since 2008 when 308 cases were received.
- There were 576 mortgage cases disposed of between January - March 2015, a 14% decrease from the same period in 2014 (669) and the third lowest number of mortgage cases disposed during this quarter since the time series began in 2007.
- There were 590 orders made between January - March 2015, a 16% decrease from the same period in 2014 (703).

## 1. INTRODUCTION

Mortgage cases are dealt with in the Chancery division of the High Court, which sits at the Royal Courts of Justice in Belfast. They relate specifically to properties or land owned at least in part with a mortgage. In cases where the owner (defendant/respondent) defaults on their mortgage payments, the lender (claimant/plaintiff) initiates legal proceedings for an order of possession of the property. Similar cases relating to the possession of rented land or properties are dealt with through Ejectment proceedings in the County Court.

People can get into housing debt for a variety of reasons:

- Change in circumstances like job loss, reduction in working hours, sickness or relationship breakdown
- Accessing high cost credit / mortgages from non-traditional lenders and securing it on their homes
- Over borrowing during the property boom

Most actions begin with the issue of originating proceedings by the claimant against the defendant. The case will be heard by a Master who will issue an order on the basis of the evidence provided. A variety of orders can be made including a:

- Possession Order
- Suspended Possession Order
- Suspended possession combined Order
- Declaration, Sale and Possession Order
- Strike Out Order
- Dismiss Order
- Other Order

In some complex cases, a High Court Judge will hear the case and issue the court order(s).

**Not all writs and originating summonses lead to eviction or re/possession, even in cases in which a possession order is made.** For example, a plaintiff begins an action for an order for possession of property. The court, following a judicial hearing, may grant an order for possession. This entitles the plaintiff to apply to have the defendant evicted. However, even where an order for eviction is issued the parties can still negotiate a compromise to prevent eviction.

In the event where a plaintiff receives a possession order and wishes to enforce the order, they may make arrangements with the defendant to re-possess the property. In circumstances in which the defendant refuses to either engage with the plaintiff or leave the property the plaintiff may enforce the order through the Enforcement of Judgments Office. Data on the number of repossessions of properties completed by the EJO are published in the annual Judicial Statistics publication.

The NICTS produced guidelines for lenders known as Pre-Action Protocols for Mortgage Possession Proceedings. They have been in operation since October 2009 and were revised in August 2011. The Protocols ensure that possession action against homeowners is taken only as a last possible resort (<http://www.courtsni.gov.uk/en-GB/Services/Pages/InformationOnRepossession.aspx>).

## **2. METHODOLOGY**

### **2.1 Data sources**

Data contained in this bulletin use data that are inputted onto the Integrated Court operations System (ICOS). This system was implemented across the Northern Ireland Courts and Tribunals Service (NICTS) over a two year period from 2005 to 2007. While ICOS was introduced in the High Court during 2005, data derived from ICOS has been used as the source for official government statistics since 2007, when the implementation of ICOS across all court tiers was completed. ICOS is a live operating system used in each court tier to process every part of court business, from receipt of payments through to the production of final orders made. The data are input into this system on a daily basis by court clerks, and this information is checked and confirmed by another member of staff to ensure the data entries are correct.

### **2.2 Methodology for generating data**

Analytical Service Group (ASG) Statisticians based within the NICTS take a download of High Court information from ICOS on a monthly basis. The information is downloaded using a package called Oracle Discoverer which extracts all the relevant data from ICOS into text files which are refreshed with up to date information each weekend. The text files are downloaded onto a secure internal facility that only specified statistical personnel have access to. The data contained in the files are identified only by numbers and names and addresses are not held. These statistical files are not transmitted outside the NICTS statistical team. ASG statisticians based in the NICTS import these data into the Statistics Package for Social Sciences (SPSS). SPSS is then used to perform extensive data validations to identify potential errors in the data and to ensure the data are reliable and robust.

### **2.3 Baseline and Time period**

Data contained within this bulletin relate to the time series 2007, when ICOS was adopted as the source of High Court data, to the current calendar year 2015.

### **2.4 Data quality and validation**

ASG statisticians based in the NICTS have invested significant time and effort creating and extensive computer programme within SPSS to validate the information downloaded from ICOS. The programme includes over 100 checks against downloaded High Court data to: (i) check consistency over time and between variables; (ii) reliability of data using logic checks; (iii) checking that variables fall within accepted ranges; and (iv) checking with the ICOS Support Team in the event of any major discrepancies that have occurred since the last download. The validation program produces user friendly tables highlighting the potential problems which are circulated to the High Court as a validation report.

The High Court has staff who are responsible for: monitoring accuracy levels on ICOS, by carrying out sample checks on data entry and court resulting; ensuring all validations on ICOS and manual statistics returns are completed in a timely manner; providing advice and identifying training needs; monitoring the confirmation of ICOS criminal court resulting,

including the inputting of adjournment codes; and promoting awareness of the impact error can have, its wide ranging consequences and the negative impact on the reliability of management information.

The staff are given a two week period from the date the validation report issues to have all records are amended on ICOS. This ensures that the corrections are updated before the next download of files. After the files have been refreshed each weekend, all the data are then downloaded again, with the new download reflecting amendments made as a result of the validation reports. If any errors have not been corrected, they will continue to appear in the validation reports until the necessary amendments are made on ICOS.

The NICTS statistics team then ensure that all validations relating to the reporting period are amended prior to publication. Once these amendments have been checked, SPSS syntax programming is then used to generate the tables in the publication.

Data contained in this bulletin are currently provisional and will undergo further validation before being published in their final form in the 2015 edition of Judicial statistics (due to be published on 24<sup>th</sup> June 2016).

## **2.5 Counting rules**

Receipts are counted from the date the case is entered onto ICOS and the fees are received. Disposals are counted from the result date that a final order was made against the case changing the case status to dealt with.

## **2.6 Interpreting trends**

Care should be taken when comparing data trends before and after 2005, when ICOS was introduced as the source for the majority of High Court data. For further advice on differences in data between years, please contact the statistician responsible for this bulletin.

## **2.7 Revisions**

Any revision to data will be applied in light of the ASG (NICTS) Statistical Note 'Policy Statement on Revisions' which can be found on the Statistics and Research page of the Services section on the NICTS website ([www.courtsni.gov.uk](http://www.courtsni.gov.uk)). Incorrect figures of changes to this publication will be published on the web in a formal Statistical Notice.

### 3. FINDINGS

#### 3.1 Mortgage cases received

During the quarter January – March 2015, 349 mortgage cases were received (the total number of writs and originating summonses that were issued). This is a 60% decrease in the number of mortgage cases received in Chancery compared to the same period in the previous year (866 in 2014), and a 38% decrease compared to January - March 2007 (565) (Figure 1).

**Figure 1: Mortgage cases received: January – March 2007 to January – March 2015**

### 3.2 Mortgage cases disposed

There were 576 mortgage cases disposed of during January - March 2015 (the total number of writs and originating summonses that were disposed). This is a 14% decrease in the number of mortgage cases disposed in Chancery compared to the same period in the previous year (669 in 2014), and while this is a 35% increase compared to January - March 2007 (426), it does represent the third lowest number of cases disposed over the nine year time series (Figure 2).

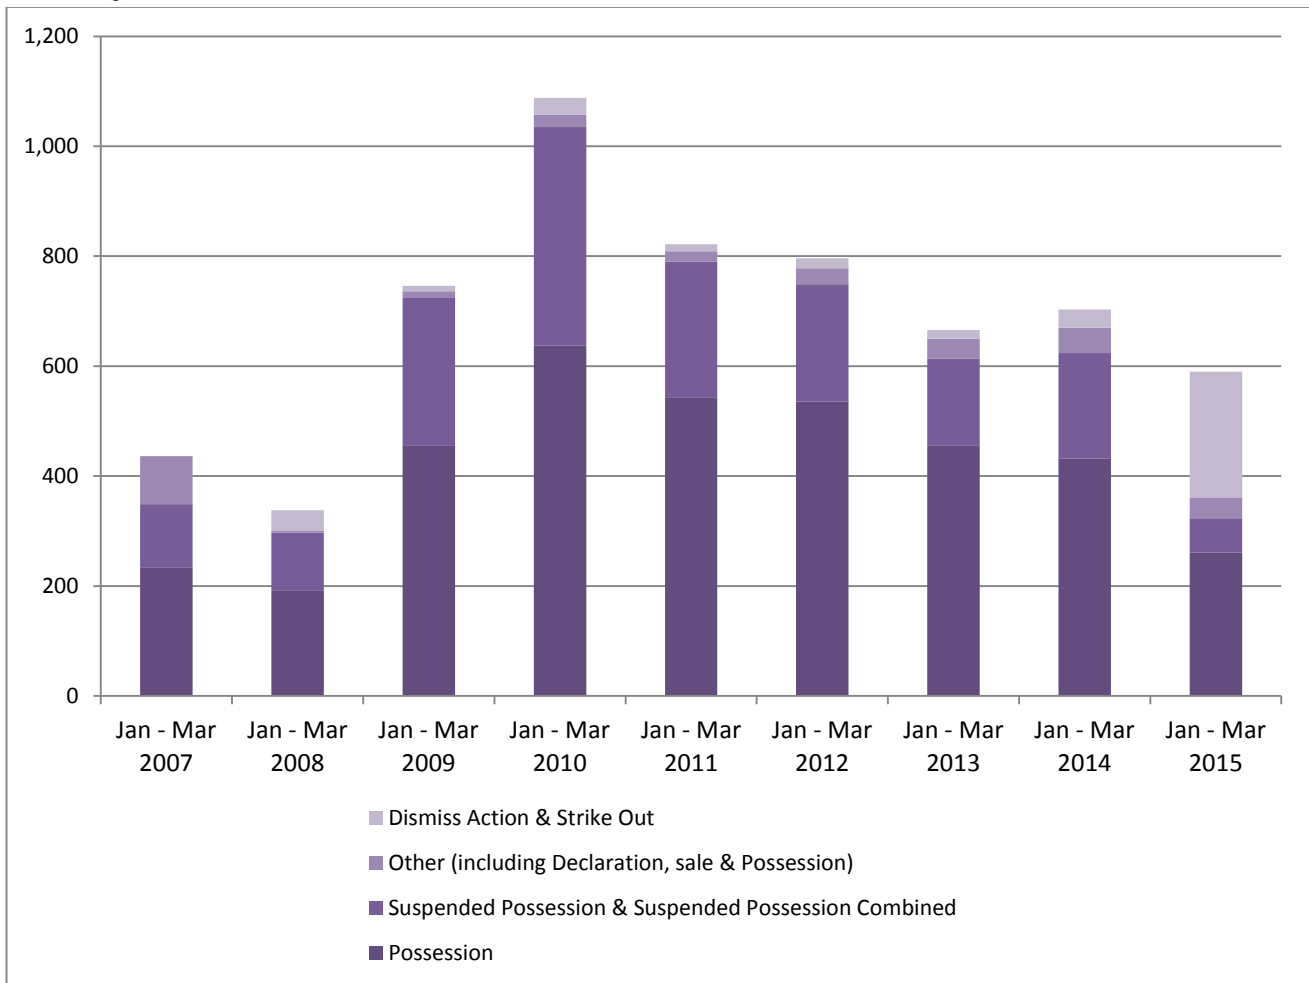

**Figure 2: Mortgage cases disposed: January – March 2007 to January – March 2015**

### 3.3 Final orders made in mortgage cases disposed

During January – March 2015, there were 590 final orders made in mortgage cases disposed. More than one order can be made per case so this figure does not necessarily equal the number of cases disposed of. This is a 16% decrease from the same period in the previous year (703 in 2014) and a 35% increase compared to the same period in 2007 (436) (Figure 3).

**Figure 3: Final orders made in mortgage cases disposed: January – March 2007 to January – March 2015**

A breakdown of the 590 final orders made in mortgage cases disposed during January - March 2015 is shown in Figure 4.

**Figure 4: Final orders made in mortgage cases disposed: January – March 2015**

## APPENDIX 2 - EXPLANATORY NOTES

### Writs and originating summonses (i.e. mortgage cases)

1. **Writs and originating summonses** - document used by the plaintiff, which commences the legal process for an order of possession for property.

**Not all writs and originating summonses lead to eviction or re/possession.** A plaintiff begins an action for an order for possession of property. The court, following a judicial hearing, may grant an order for possession. This entitles the plaintiff to apply to have the defendant evicted. However, even where an order for eviction is issued the parties can still negotiate a compromise to prevent eviction.

### Orders

Writs and originating summonses are disposed of by a number of different order types. The main ones are:

2. **Possession** – The court orders the defendant to deliver possession of the property to the plaintiff within a specified time. If the defendant fails to comply with the court order the plaintiff may proceed to apply to the Enforcement of Judgments Office to repossess the property and give possession of it to the plaintiff.
3. **Suspended Possession** – The court may postpone the date for delivery of possession if it is satisfied that the defendant is likely to be able, within a reasonable period, to pay any sums due under the mortgage, or to remedy any other breach of the obligations under the mortgage. The order will specify how much of the sum the defendant is ordered to pay should go towards the mortgage repayment and how much should go towards arrears. A suspended possession order cannot be enforced by the plaintiff without the permission of the court, which will only be granted after a further hearing.
4. **Suspended Possession combined** - This is a suspended possession order that does not specify how much of the sum the defendant is ordered to pay should go towards the mortgage repayment and how much should go towards arrears i.e. it is a combined figure.
5. **Declaration, Sale and Possession** - If the plaintiff seeks possession of property which is subject to an 'equitable mortgage' (i.e. normally one created informally by the deposit of deeds rather than the execution of a mortgage deed) the court may order a sale of the property to enable enforcement of the equitable mortgage and that the defendant give up possession for that purpose. The sale price is subject to approval by the court.
6. **Strike out** - This occurs when the moving party does not wish to proceed any further, or when the court rules that there is no reasonable ground for bringing or defending the mortgage action.
7. **Dismiss action** - The mortgage action is dismissed by the courts.

8. **Other orders** - These include: (a) Declaration of possession coupled with an order for sale in lieu of partition and (b) Stay of Eviction – after a Possession Order is granted but prior to actual repossession, the Defendant may apply to Court to seek a stay of eviction which, if granted, prevents repossession for a certain defined period.

**When a case is disposed of it may have more than one final order made.**

## **Judiciary**

1. **High Court Judge (HCJ)** – A judge who sits in the High Court and Crown Court to hear and determine civil, family and criminal business.
2. **Master** – A judicial post, where the individual must have been a legal practitioner for at least 10 years. The Master determines a range of court proceedings in the High Court, and manages procedural elements of more complex cases before they are heard by a High Court judge.

## **Further Information**

1. Information on mortgages received and disposed for Local Government District and Assembly Area is available in the Crime and Justice section of:  
<http://www.ninis2.nisra.gov.uk/public/Theme.aspx?themeNumber=132&themeName=Economy>
2. Further information on housing statistics in Northern Ireland is available from the Department for Social Development at:  
[http://www.dsdni.gov.uk/index/stats\\_and\\_research/housing\\_publications.htm](http://www.dsdni.gov.uk/index/stats_and_research/housing_publications.htm)
3. Further information in relation to mortgage and landlord possession statistics in England and Wales is available from:  
<http://webarchive.nationalarchives.gov.uk/+http://www.justice.gov.uk/publications/mortgatelandlordpossession.htm>
4. Statistical information on the UK housing and mortgage markets is also available from the Council of Mortgage Lenders at:  
<http://www.cml.org.uk/cml/statistics>
