Section 9 Overall	23
Appendix I Comparison with 2016 Results	25
Appendix II Respondent Profile	35
Appendix III Glossary of Terms and Quality Measures	39

Just over a third of customers (35%) responded to the survey this year. The survey covered a range of issues relating to the customers' experience of using AccessNI and included questions on the online application process, disclosure certificates, contact with AccessNI, AccessNI finance, communication with and complaints to AccessNI, the AccessNI website, the Umbrella Body database, and finally overall satisfaction.

On the whole, most respondents were satisfied with all aspects of the service provided by AccessNI. Overall satisfaction with the service provided remains high with 91% of customers satisfied. This figure is lower than 2016 (94%) and the same as in 2014 (91%). Customers' views are broadly similar across the organisation types.

- Most customers (79%) fully understood what information was disclosed on the disclosure. Nearly all customers (91%) found it easy to complete the online application and 90% had no difficulties in checking the identity of applicants. Around nine in ten (87%) respondents report that their disclosure certificates were returned more quickly since the service came online.
- Almost nine out of ten (87%) used casetracker to monitor the progress of applications and 93% found it useful. A quarter of customers (25%) still required applicants to share disclosure the disclosure certificate even if casetracker indicated 'Certificate issued (N)'. Likewise, a quarter of customers (24%) still required applicants to obtain a paper certificate despite digital certificates being available online.
- Most respondents (73%) used the telephone to contact AccessNI and 58% of these contacted AccessNI directly and 29% were redirected from the NIDirect helpline. Of those who used the NIDirect helpline eight out of ten were satisfied with speed at which call was answered (80%) and helpfulness of staff (78%). Slightly less (about three quarters) were satisfied with the professional knowledge of staff (74%), commitment to dealing with query (76%) and confidence in their ability (73%).
- Similar proportions received Electronic (46%) and Hard Copy (42%) invoices. Nine out of ten (89%) respondents were satisfied that their finance staff received invoices in a timely matter. Point of contact for invoice queries was evenly spread between AccountNI (21%) and AccessNI (22%) although 47% either hadn't been in contact about an invoice or didn't know who they had been in contact with. Nine out of ten customers were happy with all aspects of service from AccountNI.
- Almost all customers received the AccessNI Newsletter (95%) and AccessNI Circulars (97%) and 97% were aware of training opportunities provided by AccessNI. Respondents indicated that 84% found the AccessNI Newsletter to be very useful, 84% found the AccessNI Circulars to be useful and 78% were satisfied with training opportunities provided.
- Only a small number of respondents had made a complaint (4%), lower than in 2016 (5%) and most (70%) were about certificate delays. More than 60% reported that they were satisfied with how AccessNI dealt with their complaint. More than 60% also felt that it had been resolved satisfactorily (56% in 2016 and 39% in 2014).
- Nine out of ten (90%) of customers accessed the AccessNI website through the NIDirect website and most respondents were satisfied with the AccessNI information on the NIDirect and DOJ websites (76% to 87% for the NIDirect website and 73% to 79% for the DOJ website).
- About seven out of ten (66% to 72%) Umbrella bodies were satisfied with all aspects of the Umbrella Body database with almost half (49%) agreeing that the presence of their organisation on the database secured them new business.

Background

AccessNI was established in April 2008 as part of a joint programme between the Northern Ireland Office, the Department of Health, Social Services and Public Safety, the Department of Education and the Police Service of Northern Ireland to enable organisations in Northern Ireland to make more informed recruitment decisions. AccessNI provides criminal history information about anyone seeking paid or unpaid work in certain defined areas, such as working with children or vulnerable adults. It is part of central government and operates under the provisions of Part V of the Police Act 1997. From the 12 April 2010, AccessNI became part of the new Department of Justice in Northern Ireland.

The survey is carried out and analysed by the Staff Surveys team which is part of the Tourism Statistics and Staff Surveys Branch in the Central Survey Unit of the Northern Ireland Statistics and Research Agency (NISRA) on behalf of AccessNI. This is the eighth year in which AccessNI has held a customer survey; the first of which was held in 2008 and the most recent in 2016. As a result of previous surveys, AccessNI has taken forward a number of actions including a re-vamp of seasonal Newsletter, refinements to application forms, targeted training for customer services staff, training of Registered Body Network and a re-design of website features. Also, and more specifically in response to the 2013 survey, AccessNI developed an online application process which went live in April 2015. The availability of digital certificates came on-line in July 2018.

Methodology

AccessNI provided a list of their customers to the staff survey team. The questionnaire was issued by email through Blaise software to 693 individuals who had been identified as customers during 2018. The fieldwork was carried out over a three week period from the 11th to 28th June 2019.

Response

A total of 236 customers submitted a response, amounting to a response rate of 35% of the valid email addresses supplied (9 email addresses were not valid). Of those who responded 70% were Registered Bodies, 9% Responsible Bodies and 21% Umbrella Bodies.

Presentation of Results

The results for AccessNI Overall and for each type of Organisation are given for each question.

In some questions respondents were able to select a 'Not Applicable' option. The values shown in the report for organisation type and overall level, have been adjusted to exclude those respondents who selected this option.

Throughout the report, where the number of respondents to a particular question is less than 5, data is not disclosed to ensure respondent anonymity.

Summary of results

Section 1: Applications to AccessNI

Over the last 12 months 47% of respondents had viewed an AccessNI certificate that had information disclosed. Figure 1.1 shows that 26% of customers had refused a job application, while 23% had placed conditions on someone's employment (Figure 1.2) due to the disclosure information over the past 12 months. Of those applications refused, 76% of customers had refused 1 or more applications due to the specific nature of the conviction or other information (Figure 1.3) and 50% had been refused due to the applicant having misled the employer regarding the presence of a conviction (Figure 1.4).

Figure 1.1 Number of job applications refused employment due to disclosure information

Figure 1.2 Number of applications where conditions have been placed e.g. 'under supervision' on someone's employment

Figure 1.3 Number of job applications refused due to the specific nature of conviction or other information

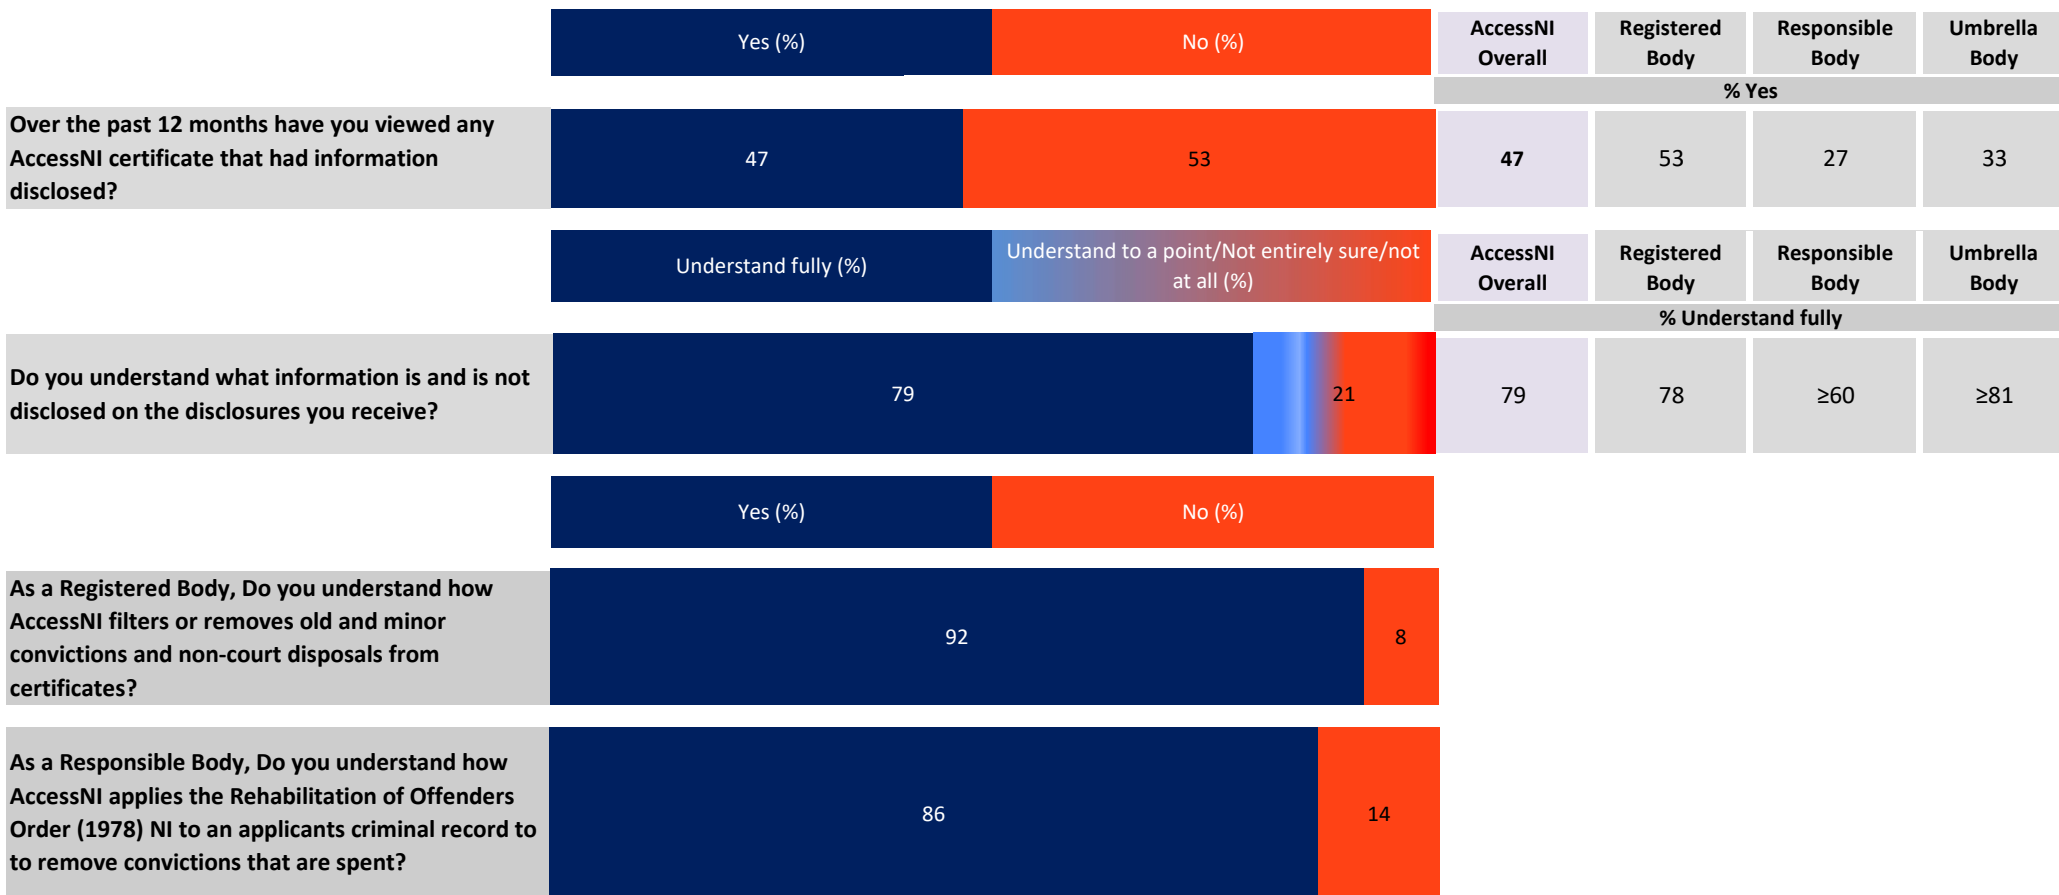

Figure 1.4 Number of job applications refused due to the application having misled the employer regarding the presence of conviction or other information

Section 1: Applications to AccessNI (continued)

Most customers (79%) fully understood what information is disclosed on the disclosure. More than nine out of ten (92%) Registered bodies understood the filtering of old and minor convictions and non-court disposals and 86% of Responsible bodies understood the application of the Rehabilitation of Offenders Order to criminal records to remove spent convictions. Nine out of ten (90%) had no difficulties in checking the identity of applicants.

Nine out of ten (91%) also found the online process to be very easy or easy, although Responsible and Umbrella bodies were less likely to report it was easy than Registered bodies. Two thirds of reported difficulties in understanding related to what the offences meant.

* the number of respondents is less than 5 and therefore deemed too small to release. # this number, while 5 or larger, has been suppressed to maintain confidentiality. ≥ 'greater than or equal to' is used where there has been a suppression due to less than 5 respondents in the other categories.

Section 2: Disclosure Certificates

Responses indicate that 87% used casetracker to monitor the progress of their applications, however, whilst all responsible bodies use the facility, fewer Registered and Umbrella bodies (86%) make use of it. For those using it 93% found it either useful or very useful.

93% of users understood the difference between the statuses Certificate issued and Certificate issued (N).

Digital certificates came on-line in July 2018 and according to responses three quarters of respondents (76%) no longer require applicants to obtain a paper certificate.

Section 3: Contact with AccessNI

Most respondents had used the telephone to contact AccessNI (73%), with 14% having made contact by email.

Most respondents that made contact by telephone had called AccessNI directly (58%), with 29% being directed to AccessNI from the NIDirect Helpline. The majority of those that had been in contact with AccessNI were satisfied with how AccessNI dealt with their call.

Nearly all of these respondents (80%) were satisfied with the speed with which their call was answered, fewer however (73%) were confident that NIDirect staff could deal with their query.

In the last 12 months, which of the following methods have you used to contact AccessNI?	AccessNI Overall	Registered Body	Responsible Body	Umbrella Body
	%			
Telephone	73	70	64	88
Email	14	15	*	10
Letter	*	*	*	0

Health - Statutory	6%
Private Sector Organisation	5%
Public Body	5%
Child care - Statutory and Voluntary	5%

Appendix III: Glossary of terms and Quality measures

Glossary of terms

% satisfied The proportion of respondents that selected either 'Very satisfied' or 'Satisfied' for a question.

- This question was not asked.

Confidentiality

This survey is managed by Central Survey Unit (CSU) on behalf of AccessNI. CSU is part of the Northern Ireland Statistics and Research Agency (NISRA). Throughout the report, where the number of respondents is less than 5, the number is not disclosed to avoid possibly compromising the anonymity of individuals. However, all responses do contribute to the overall scores for AccessNI.

Rounding

Percentages are presented as whole numbers for ease of reading. To give maximum accuracy, rounding is performed at the last stage of calculation. Values from .00 to .49 are rounded down and values from .50 to .99 are rounded up. If you perform calculations using rounded figures, these may differ slightly from our calculations. For example, if you add together the % Strongly agree, % Agree, % Neither, % Disagree and % Strongly disagree these may not total exactly 100%.

Significance

Where possible, statistical significance testing at the 95% confidence interval was carried out to test differences between the results obtained in the 2016 survey and those obtained in the current 2019 survey. Therefore, where differences have been highlighted in the text of this report or by the symbols (↑/↓), then it is likely that these represent a real difference between the results, rather than being due simply to chance.

Quality Measures

Relevance: This Report includes information on customer experiences of AccessNI. There are a wide variety of users of this information, in particular AccessNI. AccessNI has taken forward a number of actions including a re-vamp of seasonal Newsletter, refinements to application forms, targeted training for customer services staff and a re-design of website features. AccessNI developed an online application process which went live in April 2015. Digital certificates came on-line in July 2018.

Accuracy: The statistics included are representative of the online survey responses received between Tuesday 11th June 2019 and Friday 28th June 2019. Blaise Survey Software is used to produce the online survey. Questions have set routing and users must answer the core questions. Both of elements eliminate the possibility of respondents' accidentally omitting to answer. The Blaise survey software also prevents respondents completing multiple copies of the questionnaire.

Timeliness and Punctuality: The 'AccessNI Customer Survey 2019' Report has been published on the 9th August 2019, approximately 1 month after the survey ended.

Accessibility and Clarity: The online Customer Survey was available in text format to aid users of most screen-reading software. Survey administrators were also available to assist and advise respondents by both telephone and email should they have required additional assistance. The survey was available in other formats upon request. This report includes tables, charts and text highlighting key facts and is available in other formats upon request.

Comparability: The questionnaire has been updated this year to concentrate on current areas of interest, therefore comparisons to previous years for some questions are no longer valid. However, where possible comparison of responses are provided to the equivalent survey carried out in 2016.
