

Equality and Disability Action Plans 2017-2022

Health and Social Care Trusts

The South Eastern Health and Social Care Trust has been working with people and organisations to write our Equality and Disability Action Plans.

Equality means treating everyone in a fair way.

Diversity means that it is good to have people from all different backgrounds working together and using our services.

These plans explain the work we will do to:

- Help everyone to have a chance to get good health care

- Help all different communities to work well together

We have written these plans after:

- Looking at how our services affect different communities

- Talking to many different people

These are our plans for the next 5 years, from 2017 to 2022.

We want to know what people think about these plans.

Our plans

We plan to:

- Carry on with our staff training so that all trust staff understand about equality and diversity

- Work with Prison Health Care Staff to help any prisoners who do not speak English so well, to access our services

- Work with sign language users in the trust to help us have a new sign language interpreting service

- Improve the way people who have visual impairments or hearing impairments to book appointments

- We will look at our accessible information and make sure that staff know what we have

- We will train our managers so they can give the right support to disabled members of staff

What do you think?
