SECTION 1

Introduction to Northern Ireland Supplementary Estimates

- Role of Estimates**
1. Estimates set out the detailed spending plans of Northern Ireland departments and certain other public bodies and form the basis for the authorisation of sufficient funding and resources for services as detailed in the corresponding Budget Act.
- Resource-based format of the Estimates**
2. Estimates are presented on a resource basis but approval is required for both resource consumption and cash spend. The resource-based Supply arrangements are described in detail in Section 2 of the 2018-2019 Main Estimates volume¹.
 3. The Estimates along with the associated legislation provide the appropriate authority for the Northern Ireland departments' spending. Departments draw up Resource Accounts on the basis of their actual expenditure and these accounts are subject to audit by the Comptroller and Auditor General for Northern Ireland. Accounts are also laid before the Northern Ireland Assembly.
- Main Estimates**
4. The 2018-2019 Main Estimates for Northern Ireland departments were laid in Parliament in July 2018 and gave details of provision, both resources and cash proposed during 2018-2019. The Spring Supplementary Estimates in this volume give details of further provision, both resources and cash, proposed during the remainder of 2018-2019.
 5. A comprehensive guide to the Estimates of Northern Ireland departments was included in the 2018-2019 Main Estimates volume¹. This explains the relationship between public expenditure plans and Northern Ireland Estimates and gives information about the process through which the services of Northern Ireland departments are funded. The following paragraphs provide some further information about Supplementary Estimates.
- Reason for Supplementary Estimates**
6. Supplementary Estimates seek authority for additional resources and/or cash to that sought in the Main Estimates for the financial year. They may be presented:
 - i. to seek authority, and additional resources and/or cash as necessary, for any new services;
 - ii. to increase the provision for existing services;
 - iii. to increase net resources because a shortfall is expected in accruing resources;
 - iv. to increase the limit on accruing resources that may be used for services; and
 - v. to draw attention to the diversion of funds already voted for one service, to another service within the same Request for Resources. This is done when the reallocation is substantial, likely to be controversial or involves a new service.
- Reducing Estimates**
7. From 2002-03, transparency in the Northern Ireland Supplementary Estimates has been improved by the inclusion of reducing Estimates. The reductions between Main Estimates and the Supplementary Estimates are now shown for both net resources relating to one or more Requests for Resources and the overall Net Cash Requirement for the Estimate.
- Format of Supplementary Estimates**
8. Each Supplementary Estimate begins with an introduction describing the main aim of the department and detailing the proposed changes in the resource and cash requirements of the Department.
 9. Part I of each Supplementary Estimate states the change in net resource and cash requirements for the financial year. It also reproduces the "ambit", which is a formal description of all services (not just any new services) to be financed from the Estimate.

1 Northern Ireland Main Estimates, APS Group, ISBN 978-1-5286-0551-9

10. Part II of the Supplementary Estimate contains three tables. The first table identifies the lines within each Request for Resources where changes are being proposed and also shows capital and cash. This is followed by a reproduction of the original Main Estimate Part II table showing the revised subhead detail including the revised provision sought for each subhead (including unchanged subheads) as a result of the Supplementary Estimate. The third table shows a reconciliation between the net resource total and the net cash requirement.
11. Part III of the Estimate shows, as necessary, any changes to the income and/or receipts which are not used as offsets to the gross provision by way of accruing resources, but are paid into the Consolidated Fund.
12. Each Supplementary Estimate is supported by similar tables and statements to those accompanying the Main Estimate (Statement of Comprehensive Net Expenditure, Reconciliation of Resource expenditure between Estimates, Accounts and Budgets, Reconciliation of Capital expenditure between Estimates and Budgets, etc and notes broadly analogous to those appended to the resource-based Main Estimates, either restated or updated).

Accruing Resources

13. Under Section 8 of the Government Resources and Accounts Act (NI) 2001, a direction on the actual use of accruing resources is provided by way of a DoF Minute being laid before the Assembly. The Minute directs the use as accruing resources of such sums shown in the Estimates as would otherwise have been required to be surrendered to the Consolidated Fund. The source of all types of income to be offset against the gross requirements is shown in the form of a Note to each Estimate.

Procedure and timing

14. Spring Supplementary Estimates are normally published in February or March. However, when necessary, further Supplementary Estimates covered by appropriate legislation may be introduced at other times.
15. Table 1 details the sums, both resources and cash, already voted for 2018-2019 along with the revised sums required in these Supplementary Estimates.

DEPARTMENT FOR THE ECONOMY

Introduction

1. This Spring Supplementary Estimate provides for expenditure by the Department for the Economy to promote the growth of a competitive and export-led economy, to take forward its aim of promoting a culture of lifelong learning and to equip people to work in a modern economy.
2. The Department also has a potential discounted liability of £49.9m to meet claims in respect of employers and public liability claims arising from the collapse of the Harland & Wolff insurers.
3. Non statutory contingent liabilities undertaken in the privatisation of the electricity industry in Northern Ireland were notified to Parliament in May 1992. Two contingent liabilities now remain, the costs of which are unquantifiable.
4. As part of the arrangement for the transfer of training centres to Further Education Colleges, the Department agreed that, for staff who became redundant in the future, it would fund any difference between their redundancy payment and that which they would have received had they remained in the Northern Ireland Civil Service. Due to the inherent uncertainty as to the amount and timing of the future redundancy payments the Department has underwritten, it is not practical to quantify the potential liability that might arise from this undertaking.
5. The Department has a potential contingent liability notified to the Assembly in December 2018 in respect of Construction Industry Training Board pensions should they leave the Northern Ireland Local Government Officer's Superannuation Committee (NILGOSC) Scheme or cease to exist.
6. This Spring Supplementary Estimate reflects changes to the Budget position for 2018-19 made in monitoring rounds and Annually Managed Expenditure (AME) forecasts.
7. As a result of all changes there is an increase in the Net Resource Requirement of £71,651,000 and an increase in the Net Cash Requirement of £35,891,000.
8. Symbols are explained in the guide at the front of the volume.
