Post-Primary School Annual Area Profile November 2020

This document provides data for all post-primary schools in the Education Authority set out by District Council areas. Northern Ireland wide data is provided first. This is then followed by data set out by Local Government Districts. The data, with the exception of the first preference data and the 2018/19 budget information, was provided to the Education Authority by the Department of Education.

Regional Summary

Analysis of the regional trends in terms of available places in schools indicates that there is an increase of **2,846** pupils in the post-primary sector when compared with the 2018/19 year.

Post-Primary Schools	2018/19	2019/20	Changes
Number of Pupils	142,239	145,085	2,846
Number of Schools	196	193	-3

The table above shows a changing demographic which indicates a higher overall number of pupils enrolling in post-primary schools. With 15,790 available places within the post-primary school sector at 2019/20, there is capacity within the sector to meet the increase in pupil numbers.

Comparative analysis of the financial position of schools in 2020 relative to the 2019 Annual Area Profile emphasises the sincere efforts of Boards of Governors and school leaders to manage a challenging financial environment. In the post-primary sector across the region there are 3 fewer post-primary schools maintaining a budget surplus in excess of 5% of available resources. The number of post-primary schools with a budget deficit greater than 5% of available resources was 64 and this was an increase on the previous year.

In terms of the level of compliance with the Entitlement Framework requirements at Key Stage Four and Post-16, the compliance rates in 2020 were 93% of schools in full compliance with requirements at Key Stage Four and 80% of schools complying with the post-16 requirements.

As a result of the implementation of a number of Development Proposals there has been positive action to address schools where sustainability is an issue but the information contained within the Annual Area Profiles for 2020 indicate that the strategic intentions set out in the Providing Pathways document on Area Planning 2017-2020 (extended to 2021) are well founded and that further work is required to address school sustainability.

Note:

VG and GMI Schools are not reported on in the same way as schools with an Education Authority Funding Authority. The same accounting policies are not used by all VG or GMI schools and their cumulative surplus/deficit figures reflect differing levels of non-public funds. This means that the cumulative surplus/deficit of VG and GMI schools cannot be compared on a like for like basis with each other or with those of EA schools. There are therefore no financial entries for these schools in the individual profiles. These schools have been “Deemed financially viable by the Department of Education”.
