APPENDIX 8L - SCHEDULE OF PM10 CONCENTRATIONS AT INDIVIDUAL MODELLED RECEPTORS

All PM_{10} (Particulate Matter) values in the tables below are an annual mean concentration in µg m-3.

The assessment has looked at the following scenario years;

2019 – Opening year Phase 1

2023 – Opening year Phase 2

2028 – Opening Phase 3

Glossary

DM – Do-minimum

DS – Do-something

CH – Change
