SOCIAL CARE COUNCIL***

Business Plan

2017-2018

Protecting the public and safeguarding service users through the regulation and development of the social work profession and the social care workforce

INTRODUCTION

The Northern Ireland Social Care Council (NISCC) is an Arms-Length Body, sponsored by the Department of Health. NISCC published a four year Corporate Plan detailing its approach to delivering and developing services for the social care workforce from 2017/18 to 2020/21. NISCC's Corporate Plan takes account of an evolving social care environment and the recommendations arising from a number of reviews and publications, most notably the Minister of Health's strategy 'Health and Wellbeing 2026' and the Bengoa Review of Health and Social Care. This Business Plan is the first annual plan which will underpin the commitments set out in NISCC's Corporate Plan.

Our Corporate Plan for 2017/18 – 2020/21 is based on the following five themes –

- Standards
- Regulation
- Development
- Leadership
- Engagement

It explains the strategic actions which we have committed to delivering over the next four years so that we can deliver measurable and transparent outcomes for the social work and social care sector. We have been ambitious in our statements and will deliver these through a programme of actions over the next four years to ensure we remain on course to accomplish what we have set out to do in our Corporate Plan.

Our journey starts in 2017/18 and this annual business plan is the first step towards delivering on our four year goals. This Business Plan details a wide range of business objectives which will collectively support the outcomes set out in our Corporate Plan. We will measure our progress throughout the year to ensure we remain

focused and on target. In addition, we manage a number of Key Performance Indicators and Standards which are set out at the end of this Plan.

We are committed to building on the work we delivered in 2016/17 which transformed the profile of our register; which now includes over 30,000 registrants. We actively promoted and embedded our Standards of Conduct and Practice as fundamental to quality practice in social care and introduced our new Fitness to Practise regulation model which allows for a greater focus on improving poor practice. Our Professional in Practice Framework for social workers created new opportunities for social workers to achieve recognition for all of their learning and development activity and social care managers were supported to think about their development needs. Through all of this, delivering quality services has remained our priority and, as you will see in this Business Plan, that continues to be the case.

In setting out our objectives and actions for 2017/18 we recognise that we do not work in isolation but in order to be successful we operate in partnership with a number of important groups, most notably the Participation Partnership for service users and carers, the Registrants' Forum, the Workforce Development Partnership and the Professional in Practice Partnership. The work and support of these groups are fundamental to our vision and our purpose.

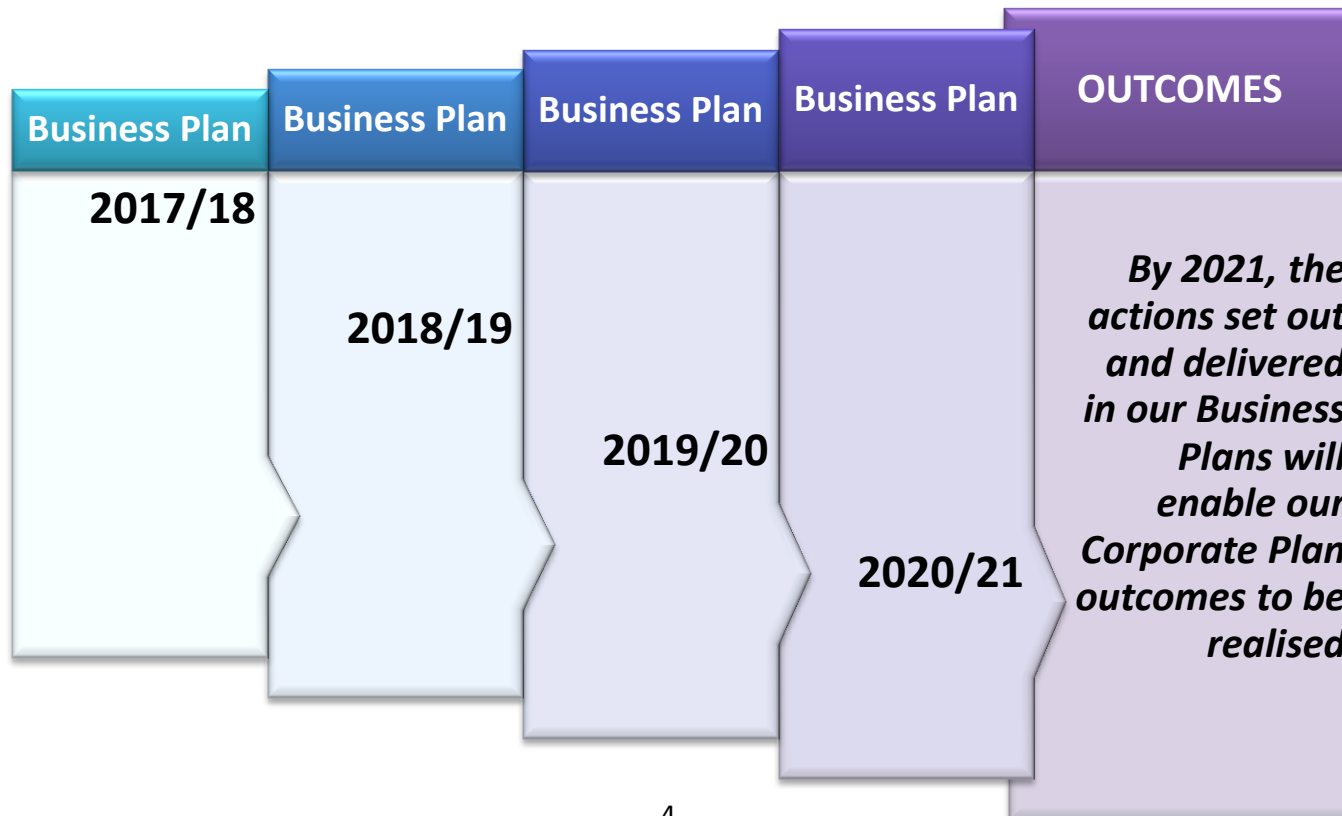

Our publications and progress against our Plans can be found on our website at www.niscc.info or email NISCC directly for more information at info@niscc.hscni.net

Putting Standards at the heart of Social Work and Social Care Practice both in relation to practice and education and training

Over the next four years, we will –

- Develop a range of accessible and adaptable learning methods and models for the registered workforce and their employers to support the application of Standards in Practice; and
- Work with registrants, employers and service users to support the consistent application of the Standards of Conduct and Practice.

This will produce the following outcomes by 2020/21–

1. The Standards of Conduct and Practice are relevant, trusted, understood and embedded

What we will do in 2017/18 to support this outcome:	When we will do this by	What the impact will be by March 2018:
<ul style="list-style-type: none"> • We will disseminate lessons from our fitness to practise processes to guide and inform workforce development. 	<p>March 2018</p>	<ul style="list-style-type: none"> • Social workers and social care workers have a better understanding of service user expectations of their conduct and practice.
<ul style="list-style-type: none"> • We will launch easy-read versions of the Standards of Conduct and Practice. 	<p>June 2017</p>	<ul style="list-style-type: none"> • Service users will have access to the Standards to inform their understanding of what they can expect from their social worker/social care worker.
<ul style="list-style-type: none"> • We will develop an electronic learning platform that will provide a minimum of 3 evidence based interactive products to support registrants in meeting their standards of conduct and practice. 	<p>March 2018</p>	<ul style="list-style-type: none"> • Registrants will have access to a range of learning materials and guidance that will support their understanding and help embed quality standards in their practice.
<ul style="list-style-type: none"> • We will undertake a minimum of 6 engagement events with registrants, their managers and employers and use electronic means of communications to help them embed the standards of conduct and practice into their everyday practice and organisational context. 	<p>March 2018</p>	<ul style="list-style-type: none"> • Standards are used in a practice specific, meaningful and dynamic way to improve quality.

Over the next four years we will –

- Improve the understanding of the role and contribution of regulation in securing public protection and enabling professionalism to thrive in social work and social care.
- Ensure the integrity and effectiveness of our registration, regulation and social work education functions.

This will produce the following outcomes by 2020/21–
